Exemption Decision

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381. This notice addresses 25 individuals who have requested renewal of their exemptions in a timely manner. The FMCSA has evaluated these 25 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Roger D. Anderson, Joey E. Buice, Ronald D. Danberry, Paul W. Dawson, Lois E. De Souza, Tomie L. Estes, Jay E. Finney, Steven A. Garrity, Waylon E. Hall, Britt D. Hazelwood, Jeffrey M. Kimsey, Robert C. Leathers, Richard L. Leonard, Larry T. Morrison, Gerald L. Phelps, Jr., Ronald F. Prezzia, Thomas G. Raymond, Tim M. Seavy, Kim L. Seibel, Randy D. Stanley, Lee T. Taylor, James M. Tayman, Sr., Wesley E. Turner, Kevin L. Wickard, John C. Young.

These exemptions are extended subject to the following conditions: (1) That each individual have a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or

(3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. §§ 31315 and 31136(e), each of the 25 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (63 FR 66226; 64 FR 16517; 66 FR 41656; 68 FR 44837; 65 FR 66286; 66 FR 13825; 68 FR 10300; 66 FR 17743; 66 FR 33990; 68 FR 35772; 66 FR 30502; 66 FR 41654; 67 FR 76439; 68 FR 10298). Each of these 25 applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Comments

The FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by August 19, 2005.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 69 FR 51346 (August 18, 2004). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.

Issued on: July 13, 2005.

Office Director, Bus and Truck Standards and Operations.

[STB Finance Docket No. 34719]

Cornhusker Railways LLC— Acquisition and Operation Exemption—Rail Line of DTE Rail Services, Inc.

Cornhusker Railways LLC (CHR), a noncarrier,¹ has filed a verified notice of exemption under 49 CFR 1150.31 to acquire by purchase from DTE Rail Services, Inc. (DTERS) and operate approximately 5.0 miles of rail line, as well as certain related yard, industry, side and spur tracks, between an interchange with BNSF Rail Company (BNSF) at milepost 103.55 near Ovina, and an interchange with Union Pacific Railroad Company (UP) at milepost 154.5 near Alda, in Hall County, NE.² CHR certifies that its projected revenues as a result of the transaction will not exceed those that would qualify it as a Class III rail carrier and will not exceed \$5 million.

Consummation was scheduled to take place shortly after the effective date of the exemption (the exemption became effective June 27, 2005, 7 days after filing).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

¹ CHR is controlled by noncarrier DTE Coal Services, which does not control any other carriers.

² DTERS purchased the line along with certain other adjacent rail facilities and associated structures from the U.S. Government in 2004 for use in the construction and operation of a railcar repair facility. The line connects with BNSF and UP, and DTERS has used the line as a private spur for the transfer of railcars between its shops and the two railroads. Under the proposed transaction, CHR will purchase both the track and the underlying right-of-way and will grant a non-exclusive, immediately terminable lease of the line back to DTERS for DTERS' non-common carrier use. CHR will retain the responsibility and the ability to provide common carrier service by means of reserved joint use rights.
