

of publication of the notice of initiation of the requested review. Section 351.213(d)(1) of the Department's regulations regarding review request withdrawals does not specifically reference changed circumstances administrative reviews. In this case, Weyerhaeuser withdrew its request for a changed circumstances review within ninety days of the review being initiated, the time period the Department generally considers reasonable for withdrawing requests for administrative reviews. Therefore, the Department has accepted Weyerhaeuser's withdrawal request in this case as timely.<sup>1</sup>

The Department is now rescinding this antidumping duty changed circumstances review. U.S. Customs and Border Protection will continue to suspend entries of subject merchandise at the appropriate cash deposit rate for all entries of certain softwood lumber products from Canada.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with 19 CFR 351.213(d)(4) and section 777(i)(1) of the Tariff Act of 1930, as amended.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The National Marine Fishery Services Pacific Islands Region (PIR) manages the U.S. fisheries of the Exclusive Economic Zone (EEZ) in the western Pacific under five fishery management plans (FMPs), prepared by the Western Pacific Fishery Management Council pursuant to the Magnuson-Stevens Fishery Conservation and Management Act. The regulations implementing the FMPs are found at 50 CFR part 660.

The record keeping and reporting requirements at 50 CFR part 660 form the basis for this collection of information. PIR requests information from participants in the fisheries and interested persons. This information, upon receipt, results in an increasingly more efficient and accurate database for the management and monitoring of fisheries of the EEZ in the western Pacific.

##### II. Method of Collection

Paper submissions, electronic reports, and telephone calls are required from participants. Other methods of submittal include Internet and facsimile transmission of paper forms.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Marine Mammal Protection Act (MMPA), Fur Seal Act (FSA), and Endangered Species Act (ESA) prohibit certain actions affecting marine mammals and endangered and threatened species, with exceptions. Permits can be obtained for scientific research, enhancing the survival or recovery of a species or stock, commercial and educational photography, and import and capture for public display; authorizations can be obtained for scientific research that involves minimal disturbance. The applicants desiring a permit or authorization must provide certain information in order for the National Marine Fisheries Service to determine whether a proposed activity is consistent with the purposes, policies, and requirements of these laws, and that the activity is in the best interest of the protected species and the public. The permit holders and authorized researchers must report on activities conducted to ensure compliance with permit conditions and protection of the animals. Holders of captive marine mammals must report changes to their animal inventory.

Scientific research and enhancement permit applications for non-salmonid endangered and threatened species previously submitted under OMB No. 0648-0402, will be combined with permit applications for marine mammals in order to streamline the process for requesting takes of multiple species and to accommodate an online application system currently in development. The regulations implementing permit, authorization, and inventory requirements under the

MMPA and FSA are at 50 CFR part 216; the regulations for permit requirements under the ESA are at 50 CFR part 222.

The respondents will be researchers, photographers, and other members of the public seeking exceptions to prohibited activities on marine mammals and endangered and threatened species, excluding salmonids, through permits or authorizations for purposes described above; and holders of marine mammals in captivity.

**II. Method of Collection**

Permit and authorization application materials and reports are paper and in some cases, electronic, and are written to respond to a required format. Inventory materials and reports are paper forms. Methods of submittal include mail, facsimile transmission, and electronic submission.

**III. Data**

*OMB Number:* 0648-0084.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Individuals or households; not-for-profit institutions; business or other for-profit organizations; Federal Government; and State, Local, or Tribal Government.

*Estimated Number of Respondents:* 518.

*Estimated Time Per Response:* 32 hours for an application for a scientific research or enhancement permit; 20 hours for an application for a public display permit; 10 hours for an application for a photography permit or a General Authorization; 20 hours for a major amendment or modification to a permit; 3 hours for a minor amendment or modification to a permit or for a change to a General Authorization; 12 hours for a scientific research or enhancement permit report; 8 hours for a General Authorization report; 2 hours for public display or photography permit report; 2 hours for a request to retain or transfer a rehabilitated marine mammal; 2 hours for a marine mammal inventory (1 hour for a transport notification; 30 minutes each for a data sheet and a person/holder/facility sheet); and 2 hours for recordkeeping.

*Estimated Total Annual Burden Hours:* 6,678.

*Estimated Total Annual Cost to Public:* \$1,700.

**IV. Request for Comments**

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the

agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

**Magnuson-Stevens Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; 2006 Georges Bank Cod Hook Sector Operations Plan and Agreement and Allocation of Georges Bank Cod Total Allowable Catch**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** Amendment 13 to the Northeast (NE) Multispecies Fishery Management Plan (FMP) (Amendment 13) authorized allocation of up to 20 percent of the annual Georges Bank (GB) cod total allowable catch (TAC) to the GB Cod Hook Sector (Sector). Pursuant to that authorization, the Sector has submitted an Operations Plan and Sector Contract entitled, "Amendment 2 to Georges Bank Cod Hook Sector Operations Plan and Agreement" (together referred to as the Sector Agreement), and a Supplemental Environmental Assessment (EA), and has requested an allocation of GB cod, consistent with regulations implementing Amendment 13. This notice provides interested parties an opportunity to comment on the proposed Sector Agreement prior to final approval or disapproval of the Sector Operations Plan and allocation of
