

costs and burden; it includes the actual data collection instruments [if any].

DATES: Comments must be submitted on or before May 26, 2006.

FOR FURTHER INFORMATION CONTACT: Gail B. Scott at CFTC, (202) 418-5139; FAX: (202) 418-5524; e-mail: gscott@cftc.gov and refer to OMB Control No. 3038-0043.

SUPPLEMENTARY INFORMATION:

Title: Rules Relating to Review of National Futures Association Decisions in Disciplinary, Membership Denial, Registration, and Member Responsibility Actions, OMB Control No. 3038-0043. This is a request for extension of a currently approved information collection.

Abstract: 17 CFR part 171 rules require a registered futures association to provide fair and orderly procedures for membership and disciplinary actions. The Commission's review of decisions of registered futures associations in disciplinary, membership denial, registration, and member responsibility actions is governed by section 17(h)(2) of the Commodity Exchange Act, 7 U.S.C. 21(h)(2). The rules establish procedures and standards for Commission review of such actions, and the reporting requirements included in the procedural rules are either directly required by section 17 of the Act or are necessary to the type of appellate review role Congress intended the Commission to undertake when it adopted that provision.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the CFTC's regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on February 8, 2006 (71 FR 6455).

Burden statement: The respondent burden for this collection is estimated to average .5 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 25.

Estimated number of responses: 51.3.

Estimated total annual burden on respondents: 25.6 hours.

Frequency of collection: On occasion.

Send comments regarding the burden estimated or any other aspect of the information collection, including suggestions for reducing the burden, to the addresses listed below. Please refer to OMB Control No. 3038-0043 in any correspondence.

Gail B. Scott, Office of General Counsel, Commodity Futures Trading Commission, 1155 21st Street, NW., Washington, DC 20581 and Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for the CFTC, 725 17th Street, NW., Washington, DC 20503.

Dated: Issued in Washington, DC, on April 20, 2006.

Jean A. Webb,

Secretary of the Commission.

BILLING CODE 6351-01-M

CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request—Flammability Standards for Children's Sleepwear

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of January 25, 2006, 71 FR 4118, the Consumer Product Safety Commission (CPSC) or Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek extension of approval of collections of information in the flammability standards for children's sleepwear and implementing regulations. Two comments were received in response to that notice. One comment supported the proposed extension of information collection for children's sleepwear. One comment stated that over-the-counter samples should be tested and that the collection of information should be computerized and violations reported. Currently, the standard is enforced through the inspection of establishments manufacturing sleepwear, through retail surveillance and by follow-up to consumer and trade complaints. During these inspections, randomly selected samples are tested and samples required to be maintained by the standard, as well as record keeping that is required

by the standard, are examined.

Information regarding violations of the standard are available on the recall section of the CPSC Web site at <http://www.cpsc.gov>.

Accordingly, by publication of this notice, the Commission announces that it has submitted to the Office of Management and Budget (OMB) a request for extension of approval of the collections of information for three years from the date of approval.

The standards and regulations are codified as the Flammability Standard for Children's Sleepwear: Sizes 0 Through 6X, 16 CFR Part 1615; and the Flammability Standard for Children's Sleepwear: Sizes 7 Through 14, 16 CFR part 1616. The flammability standards and implementing regulations prescribe requirements for testing and recordkeeping by manufacturers and importers of children's sleepwear subject to the standards. The information in the records required by the regulations allows the Commission to determine if items of children's sleepwear comply with the applicable standard. This information also enables the Commission to obtain corrective actions if items of children's sleepwear fail to comply with the applicable standard in a manner which creates a substantial risk of injury.

Additional Information About the Request for Reinstatement of Approval of Collections of Information

Agency address: Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814.

Title of information collection: Standard for the Flammability of Children's Sleepwear: Sizes 0 Through 6X, 16 CFR Part 1615; Standard for the Flammability of Children's Sleepwear: Sizes 7 Through 14, 16 CFR part 1616.

Type of request: Extension of approval without change.

General description of respondents: Manufacturers and importers of children's sleepwear in sizes 0 through 14.

Estimated number of respondents: 53.
Estimated average number of hours per respondent: 2,000 per year.

Estimated number of hours for all respondents: 318,000 per year.

Estimated cost of collection for all respondents: \$9,142,500 per year.

Comments: Comments on this request for extension of approval of information collection requirements should be submitted by May 26, 2006 to (1) the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for CPSC, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340, and (2) the

Office of the Secretary, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814. Written comments may also be sent to the Consumer Product Safety Commission, Office of the Secretary by e-mail at cpsc-os@cpsc.gov or facsimile at (301) 504-0127.

Copies of this request for extension of the information collection requirements and supporting documentation are available from Linda Glatz, Management and Program Analyst, Office of Planning and Evaluation, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; telephone: (301) 504-7671.

Dated: April 20, 2006.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

Proposed Collection; Comment Request—Citizens Band Base Station Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Consumer Product Safety Commission requests comments on a proposed extension of approval of a collection of information from manufacturers and importers of citizens band base station antennas. The collection of information is in regulations implementing the Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204). These regulations establish testing and recordkeeping requirements for manufacturers and importers of antennas subject to the standard. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this collection of information from the Office of Management and Budget (OMB).

DATES: The Office of the Secretary must receive comments not later than June 26, 2006.

ADDRESSES: Written comments should be captioned "Citizens Band Base Station Antennas" and e-mailed to the Office of the Secretary at cpsc-os@cpsc.gov. Comments may also be sent by facsimile to (301) 504-0127, or by mail to the Office of the Secretary, Consumer Product Safety Commission,

4330 East West Highway, Bethesda, Maryland 20814.

FOR FURTHER INFORMATION CONTACT: For information about the proposed extension of approval of the collection of information, or to obtain a copy of 16 CFR part 1204, call or write Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, Maryland 20814; telephone (301) 504-7671.

SUPPLEMENTARY INFORMATION:

A. Background

In 1982, the Commission issued the Safety Standard for Omnidirectional Citizens Band Antennas (16 CFR part 1204) to reduce risks of death and serious injury that may result if an omnidirectional antenna contacts an overhead power line while being erected or removed from its site. The standard contains performance tests to demonstrate that an antenna will not transmit a harmful electric current if it contacts an electric power line with a voltage of 14,500 volts phase-to-ground. Certification regulations implementing the standard require manufacturers, importers, and private labelers of antennas subject to the standard to perform tests to demonstrate that those products meet the requirements of the standard, and to maintain records of those tests. The certification regulations are codified at 16 CFR part 1204, subpart B.

The Commission uses the information compiled and maintained by manufacturers, importers, and private labelers of antennas subject to the standard to help protect the public from risks of injury or death associated with omnidirectional citizens band base station antennas. More specifically, this information helps the Commission determine that antennas subject to the standard comply with all applicable requirements. The Commission also uses this information to obtain corrective actions if omnidirectional citizens band base station antennas fail to comply with the standard in a manner which creates a substantial risk of injury to the public. The Office of Management and Budget approved the collection of information in the certification regulations under control number 3041-0006. OMB's most recent extension of approval expires on July 31, 2006. The Commission now proposes to request an extension of approval without change for the collection of information in the certification regulations.

B. Estimated Burden

The Commission staff estimates that about 5 firms manufacture or import citizens band base station antennas subject to the standard. The Commission staff estimates that the certification regulations will impose an average annual burden of about 220 hours on each of those firms. That burden will result from conducting the testing required by the regulations and maintaining records of the results of that testing. The total annual burden imposed by the regulations on manufacturers and importers of citizens band base station antennas is approximately 1,100 hours.

The hourly wage for the testing and recordkeeping required to conduct the testing and maintain records required by the regulations is about \$42.84 (Bureau of Labor Statistics, 2006), for an estimated annual cost to the industry of \$47,000.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: April 20, 2006.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.
