SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. SUPPLEMENTARY INFORMATION: Section 1813 of Energy Policy Act of 2005 requires the Secretaries of the Departments of the Interior and Energy (the "Secretaries") to jointly conduct a study of energy rights-of-way on tribal land. Specifically, section 1813 requires the Secretaries submit to Congress a report on the findings of the study, including:

(1) An analysis of historic rates of compensation paid for energy rights-of-way on tribal land;

(2) Recommendations for appropriate standards and procedures for determining fair and appropriate compensation to Indian tribes for grants, expansions, and renewals for energy rights-of-way on tribal land;

(3) An assessment of the tribal self-determination and sovereignty interests implicated by applications for the grant, expansion, or renewal of energy rights-of-way on tribal land; and

(4) An analysis of relevant national energy transportation policies relating to grants, expansions, and renewals of energy rights-of-way on tribal land.

At meetings in March and April, the Departments sought the public's input

on information related to the historic rates of compensation paid for energy rights-of-way on tribal land that are important for the Departments to consider in the study. While the Departments are making good progress in this regard, we continue to seek factual information from the public to support specific case studies that members of the public regard as relevant to one or more elements of the study.
