

Although other non-emergency issues not on the agendas may come before the Council and Committees for discussion, in accordance with the Magnuson-Stevens Act, those issues may not be the subject of formal action during these meetings. Actions of the Council and Committees will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency. The established times for addressing items on the agenda may be adjusted as necessary to accommodate the timely completion of discussion relevant to the agenda items. In order to further allow for such adjustments and completion of all items on the agenda, the meeting may be extended from, or completed prior to the date established in this notice.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Trish Kennedy at the Council (see **ADDRESSES**) at least 5 working days prior to the meeting.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The Patent Prosecution Highway (PPH) pilot program is being established between the United States Patent and Trademark Office (USPTO) and the Japan Patent Office (JPO). This program will allow applicants whose claims are determined to be patentable in the office of first filing to have the corresponding application that is filed in the office of second filing be advanced out of turn for examination. At the same time, this program will allow the office of second filing to exploit the search and examination results of the office of first filing. The one-year pilot program will begin on July 3, 2006.

In order to participate in this program, applicants must meet certain requirements. Some of the requirements are: (1) The U.S. application must validly claim foreign priority to the JPO application; (2) the JPO application must have at least one claim that was determined to be patentable; (3) all the claims in the U.S. application must be amended to sufficiently correspond to the patentable claims in the JPO application; (4) examination of the U.S. application has not begun; (5) applicant must submit copies of the JPO office actions and English translations thereof; and (6) applicant must file a petition to make special along with the required petition fee.

This information collection includes one proposed form, Request for Participation in the Patent Prosecution Highway (PPH) Pilot Program Between the JPO and the USPTO (PTO/SB/20), which may be used by applicants to request participation in the pilot program and to ensure that they meet the program requirements.

II. Method of Collection

Requests to participate in the PPH pilot program must be submitted by fax to the Office of the Commissioner for Patents (571–273–0125) to ensure that the request is processed in a timely manner. The USPTO will consider alternative methods of submission under this program after the one-year pilot period is concluded.
