

Section 609. Shrimp imports from any nation not certified were prohibited effective May 1, 2006 pursuant to Section 609.

DATES: *Effective Date:* On publication.

Clayton Stanger, Office of Marine Conservation, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State, Washington, DC 20520-7818; telephone: (202) 647-2335.

SUPPLEMENTARY INFORMATION: Section 609 of Public Law 101-162 prohibits imports of certain categories of shrimp unless the President certifies to the Congress not later than May 1 of each year either: (1) That the harvesting nation has adopted a program governing the incidental capture of sea turtles in its commercial shrimp fishery comparable to the program in effect in the United States and has an incidental take rate comparable to that of the United States; or (2) that the fishing environment in the harvesting nation does not pose a threat of the incidental taking of sea turtles. The President has delegated the authority to make this certification to the Department of State. Revised State Department guidelines for making the required certifications were published in the **Federal Register** on July 2, 1999 (Vol. 64, No. 130, Public Notice 3086).

On April 28, 2006, the Department certified 14 nations on the basis that their sea turtle protection programs are comparable to that of the United States: Belize, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Pakistan, Panama, Suriname, and Venezuela.

The Department also certified 24 shrimp harvesting nations and one economy as having fishing environments that do not pose a danger to sea turtles. Sixteen nations have shrimping grounds only in cold waters where the risk of taking sea turtles is negligible. They are: Argentina, Belgium, Canada, Chile, Denmark, Finland, Germany, Iceland, Ireland, the Netherlands, New Zealand, Norway, Russia, Sweden, the United Kingdom, and Uruguay. Eight nations and one economy only harvest shrimp using small boats with crews of less than five that use manual rather than mechanical means to retrieve nets, or catch shrimp using other methods that do not threaten sea turtles. Use of such small-scale technology does not adversely affect sea turtles. The eight nations and one economy are: the Bahamas, China, the Dominican Republic, Fiji, Hong Kong, Jamaica, Oman, Peru and Sri Lanka.

The Department of State has communicated the certifications under Section 609 to the Office of Field Operations of U.S. Customs and Border Protection.

In addition, this **Federal Register** Notice confirms that the requirement for all DS-2031 forms from uncertified nations must be originals and signed by the competent domestic fisheries authority.

This policy change was first announced in a Department of State media note released on December 21, 2004.

Dated: May 12, 2006.

David A. Balton,

Deputy Assistant Secretary for Oceans & Fisheries, Department of State.

Surface Transportation Board

[STB Ex Parte No. 662]

Review of Liability of Motor Common Carriers of Household Goods

AGENCY: Surface Transportation Board.

ACTION: Notice and request for comments.

SUMMARY: In the Safe, Accountable, Flexible, Efficient Transportation Equity

Act: A Legacy for Users (SAFETEA-LU), Public Law No. 109-59, § 4215, 119 Stat. 1144 (2005), Congress directed the Surface Transportation Board (Board) to review the current Federal regulations regarding the level of liability protection provided by motor carriers that provide transportation of household goods (HHG) and revise the regulations, if necessary, to provide enhanced protection in the case of loss or damage. The Board seeks public comment on the issue.

DATES: Comments are due June 22, 2006.

ADDRESSES: Send an original and 10 copies of any comments, referring to STB Ex Parte No. 662, to: Surface Transportation Board, 1925 K Street, NW., Washington DC 20423-0001.

FOR FURTHER INFORMATION CONTACT: Lawrence C. Herzig, (202) 565-1578. [Federal Information Relay Service (FIRS) for the hearing impaired: 1-800-877-8339].

SUPPLEMENTARY INFORMATION: Prior to the enactment of SAFETEA-LU on August 10, 2005, under 49 U.S.C. 14706, motor carriers of HHG were generally held liable for the actual loss or injury they caused to the property they transported and, because most HHG are "used," the carrier's liability historically extended to the depreciated value of the goods. However, under 49 U.S.C. 14706(f), HHG carriers could, with the Board's permission, limit their liability by offering "released rates" (rates under which the carrier is released from the statutory level of cargo liability, and the carrier's liability for a shipment of property is limited to a value established by written declaration of the shipper or by a written agreement). The Board has issued orders authorizing HHG carriers to adopt released rates that follow a certain format.

In section 4207 of SAFETEA-LU, Congress changed the statutorily prescribed, standard liability of HHG carriers for loss or damage to the replacement value of the goods, up to the pre-declared total value of the shipment, unless the shipper waives in writing that level of protection. In addition to making that statutory change, Congress also directed the Board, in section 4215, to review the current Federal regulations regarding the level of liability protection provided by HHG carriers and revise the regulations, if necessary, to provide enhanced protection in the case of loss or damage.

The current regulations at 49 CFR 375.201-203, promulgated by the Federal Motor Carrier Safety Administration of the Department of Transportation, provide generally that a
