

regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.¹¹ NYSE believes that the proposed amendments to Sections 501.00, 601.01, and 906 of the Manual are consistent with its obligations under Section 6(b)(5) because issuers will be encouraged to use DRS, which should facilitate reducing the use of securities certificates and in turn should promote more efficient clearing and settling of securities transactions.

Federal Aviation Administration

Receipt of Noise Compatibility Program and Request for Review

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Fresno Yosemite International Airport (FAT) under the provisions of 40 U.S.C. 47501 *et seq.* (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR Part 150 by city of Fresno, California. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR Part 150 for FAT were in compliance with applicable requirements, effective July 6, 2005 (70 FR 50437-50438). The proposed noise compatibility program will be approved or disapproved on or before November 22, 2006.

DATES: Effective Date: The effective date of the start of FAA's review of the noise compatibility program is May 26, 2006. The public comment period ends July 25, 2006.

FOR FURTHER INFORMATION CONTACT: Camille Garibaldi, Environmental Protection Specialist, Federal Aviation Administration, Western Pacific Region, San Francisco Airports District Office, 831 Mitten Road, Suite 210, Burlingame, CA 94010, Telephone (650) 876-2778 extension 613. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program for FAT, which will be approved or disapproved on or before November 22, 2006. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has formally received the noise compatibility program for FAT, effective on May 26, 2006. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section

¹¹ 15 U.S.C. 78f(b)(5).

¹² 17 CFR 200.30-3(a)(12).

47504 of the Act. Preliminary review of the submitted material indicates that it conforms to FAR Part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before November 22, 2006.

The FAA's detailed evaluation will be conducted under the provision of 14 CFR Part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program are available for examination at the following locations:
