

and begin discussion on what will be the Technology Vectors DoD will need for the 21st century.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will: review previous attempts by DoD to identify critical technologies in order to derive lessons that would help illuminate the current challenge; identify the National Security objectives for the 21st century and the operational missions that U.S. military will be called upon to support these objectives; identify new operational capabilities needed for the proposed missions; identify the critical science technology, and other related enablers of the desired capabilities; assess current S&T investment plans' relevance to the needed operational capabilities and enablers and recommend needed changes to the plans; identify mechanisms to accelerate and assure the transition of technology into U.S. military capabilities; and review and recommend changes as needed, the current processes by which national security objectives and needed operational capabilities are used to develop and prioritize science, technology, and other related enablers, and how those enablers are then developed.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meetings will be closed to the public.

Agency Information Collection Extension

AGENCY: Department of Energy.

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy (DOE) has submitted an information collection package to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The package requests a three-year extension of the information collection listed at the end of this notice. Comments are invited on: (a) Whether the extended information collections are necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collections on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this collection must be received on or before August 7, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4650.

DEPARTMENT OF ENERGY

Notice of Availability of the Draft Environmental Assessment for the Proposed Infrastructure Improvements for the Yucca Mountain Project, Nevada

AGENCY: U.S. Department of Energy.

ACTION: Notice of Availability.

SUMMARY: This notice announces the availability, and the opportunity for public review and comment, of a draft environmental assessment (EA) (DOE/EA–1566) that examines the impacts of a proposal by the Department of Energy (DOE) to repair, replace, or improve certain facilities, structures, roads, and utilities (collectively referred to as *infrastructure*) for the Yucca Mountain Project. The proposed action would enhance safety at the project and enable DOE to safely continue ongoing operations, scientific testing, and maintenance until such time as the Nuclear Regulatory Commission decides whether to authorize construction of a repository.

DATES: Comments should be submitted to DOE no later than August 7, 2006. DOE will consider comments submitted after this date to the extent practicable.

ADDRESSES: Comments, or requests for copies of the draft EA, should be sent to Dr. Jane Summerson, EA Document Manager, United States Department of Energy, 1551 Hillshire Drive, Las Vegas, NV 89134. Requests for copies of the draft EA may also be made by calling 1–800–225–6972. The draft EA and electronic comment forms are available at <http://www.ocrwm.doe.gov>. Comments may also be faxed to 1–800–967–0739.

FOR FURTHER INFORMATION CONTACT: Dr. Jane Summerson, EA Document Manager, at the above address or at 1–800–225–6972.

SUPPLEMENTARY INFORMATION: The proposed action is to repair, replace, or improve certain infrastructure at Yucca

Mountain over a two-year period to enhance safety at the project and to enable DOE to continue safely conducting operations, scientific testing, and routine maintenance until such time as the Nuclear Regulatory Commission (NRC) decides whether to authorize construction of a repository. For purposes of analysis in this EA, DOE assumes this period could be up to 10 years in duration. This EA does not, however, consider or include any actions beyond an NRC decision on construction authorization. The main elements of the proposed action are as follows:

- Construct up to 33 miles of new and replacement roads (with two options for an access road)
- Construct up to 20.6 miles of new 138 kV power lines (with two options for a main power line)
- Develop a Central Operations Area consisting of six support buildings to replace existing infrastructure that is nearing or, in some instances, has exceeded its expected design and operational life
- Site, repair, and construct other facilities and structures for the Yucca Mountain Project

Under both the proposed action and the no-action alternative, ongoing operations, scientific testing, and routine maintenance would continue to be considered.

Some portions of the roads evaluated in this EA cross or run parallel to floodplains. Therefore, this EA includes a floodplain and wetlands assessment in compliance with DOE Floodplain and Wetland Environmental Review Requirements (10 CFR Part 1022).

DOE will consider comments received (see **DATES** and **ADDRESSES**, above) in finalizing the EA. Based on the final EA, DOE will determine whether to prepare an environmental impact statement or issue a finding of no significant impact if appropriate for the proposed action.

Issued in Washington, DC, on June 29, 2006.

Edward F. Sproat, III,

Director, Office of Civilian Radioactive Waste Management.
