September 7, 2006.

On July 7, 2006, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to retroactively apply a suspension of transaction charges for specialist orders in connection with the trading of the Nasdaq-100 Index Tracking Stock® (Symbol: QQQQ) from July 1, 2006 through July 12, 2006. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements

concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**1. Purpose**

Currently, under ISE Rules, Electronic Access Members ("EAMs") are not permitted to represent orders for the account of an ISE market maker. While it is common practice on other exchanges for brokers to represent orders for the account of a market maker, the ISE initially included this restriction in its rules due to a system limitation. Specifically, allowing ISE market makers to enter orders through another member instead of directly might have created an opportunity for ISE market makers to avoid certain limitations on market maker trading contained in the Exchange's Rules.⁴

The Exchange has developed the capability for EAMs to mark orders to show that they are for the account of an ISE market maker. As such, these orders will flow through the Exchange's surveillance system as if they were directly entered by the market makers. Therefore, we propose to eliminate the prohibition against EAMs entering orders for the account of ISE market makers. However, under the proposal, an EAM will be prohibited from entering orders solicited from an ISE market maker assigned to the options class into the Solicited Order Mechanism and the Price Improvement Mechanism, which are designed to expose solicited transactions to the market.⁵

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act⁶ in general, and furthers the objectives of Section 6(b)(5)

⁴ See, e.g., ISE Rule 805 (Market Maker Orders).

⁵ This limitation on entering orders solicited from market makers assigned to the options class was included in a rule change by the CBOE (the "Automated Improvement Mechanism" or "AIM") recently approved by the Commission. See Securities Exchange Act Release No. 53222 (Feb. 3, 2006), 71 FR 7089 (Feb. 10, 2006). The execution of solicited transactions through AIM is similar to the execution of orders through the ISE's Solicited Order Mechanism and Price Improvement Mechanism.

⁶ 15 U.S.C. 78f(b).

of the Act⁷ in particular, in that it is designed to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transaction in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. In particular, the rule change will allow EAMs to represent ISE market maker orders on the ISE, while prohibiting them from entering orders solicited from market makers assigned to the options class through mechanisms designed to expose solicited transactions to the market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-54416; File No. SR-MSRB-2006-07]

**Self-Regulatory Organizations;
Municipal Securities Rulemaking
Board; Notice of Filing of Proposed
Rule Change to MSRB Rule G-14
RTRS Procedures Relating to "List
Offering Price" and "Takedown"
Transactions**

September 8, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 15, 2006, the Municipal Securities Rulemaking Board ("MSRB" or "Board") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the MSRB. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's
Statement of the Terms of Substance of
the Proposed Rule Change**

The MSRB is filing with the Commission a proposed rule change to Rule G-14 RTRS Procedures under Rule G-14, Reports of Sales or Purchases, to expand the usage of "list offering price" transactions to include certain inter-dealer "takedown" transactions and to require the reporting of these transactions as "list offering price" transactions on the first day of trading of a new issue. The text of the proposed rule change is available on the MSRB's Web site (<http://www.msrb.org>), at the MSRB's principal office, and at the Commission's Public Reference Room.

**II. Self-Regulatory Organization's
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule
Change**

In its filing with the Commission, the MSRB included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The MSRB has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization's
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule
Change*

1. Purpose

MSRB Rule G-14 requires brokers, dealers, and municipal securities dealers (collectively "dealers") to report information about each purchase and sale transaction effected in municipal securities to the Real-Time Transaction Reporting System ("RTRS") in the manner prescribed by Rule G-14 RTRS Procedures. Rule G-14 requires that transactions effected with a time of trade during the hours of the RTRS business day be reported within fifteen minutes of the time of trade to an RTRS Portal.

Under MSRB Rule G-14 RTRS Procedures, paragraph (a)(ii), there are three exceptions to this fifteen minute reporting requirement. The exception addressed by the proposed rule change currently allows syndicate managers, syndicate members and selling group members that effect trades in new issues on the first day of trading at the list offering price to report such trades by the end of the day on which the trades were executed.³ This exception is known as the "List Offering Price" exception.

The "List Offering Price" is defined as the publicly announced initial offering price at which a new issue of municipal securities is to be offered to the public.⁴ The MSRB provided the end-of-day reporting deadline for these customer transactions because of the substantial operational difficulties underwriters would face in reporting large numbers of List Offering Price transactions within a fifteen-minute window after the formal award. The MSRB also concluded that real-time dissemination of large numbers of primary market transactions occurring at the same price would not offer a substantial benefit to RTRS transparency objectives.

For purposes of RTRS transaction reporting, a "Takedown" transaction is

³ The other two exceptions to the fifteen minute reporting rule are: (1) A dealer effecting a trade in a short-term instrument under nine months in effective maturity (including variable rate instruments, auction rate products, and commercial paper) shall report such trades by the end of the business day on which the trades were executed; and (2) a dealer shall report a trade within three hours of the time of trade if certain conditions apply. See MSRB Rule G-14 RTRS Procedures (a)(ii)(B) and (C).

⁴ If the price is not publicly disseminated (e.g., if the security is a "not reoffered" maturity within a serial issue), the price is not a List Offering Price. See "Reminder Notice on List Offering Price and Three-hour Exception for Real-Time Transaction Reporting; Rule G-14," MSRB Notice 2004-40 (December 10, 2004).
