ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed continuing information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning Excess Federal Real Property Program application.

SUPPLEMENTARY INFORMATION: The purpose of the Excess Federal Real Property Program is to convey at no cost to State and local governments excess Federal real property that the Federal Emergency Management Agency (FEMA) determines can be used for emergency management response purposes in perpetuity. The Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. 553, (formerly 40 U.S.C. 484(p)), authorizes the Administrator of the General Services Administration (GSA) to transfer or convey (without monetary consideration) Federal real and related surplus property needed for emergency

management response purposes, including fire rescue services. GSA's implementing regulations are contained in 41 CFR part 1201-47.

Collection of Information

Title: Excess Federal Real Property Program Application.

Type of Information Collection: Extension of a currently approved collection.

OMB Number: 1660-0080.

The notification should occur within 20 days after notification of property

availability. States, the District of Columbia, any territory or possession of the United States, or any political subdivision or instrumentality thereof, may apply for the transfer or conveyance of surplus real property for emergency management response use purposes. An applicant must formally submit a completed Excess Federal Real Property Program application including supporting documentation to FEMA. After receiving this information, FEMA will then determine if the requested excess Federal real property is required for emergency management response use. The application processes designed to ensure that the applicant's proposed use of the Federal real property is for emergency management use as an integral part of applicable State, local and Tribal government plans. The completed application form is designed to ensure that the applicant conforms to GSA and DOD regulatory conditions.
