Title: NESHAP for Miscellaneous Organic Chemical Manufacturing (Renewal).

ICR numbers: EPA ICR Number 1969.03, OMB Control Number 2060-0533.

ICR Status: This ICR is scheduled to expire on October 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 63, subpart FFFF, were proposed on April 4, 2002, and promulgated on November 10, 2003. These regulations apply to new and existing facilities that manufacture a miscellaneous organic chemical and are located at, or are part of, major sources of hazardous air pollutant (HAP) emissions. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63 subpart FFFF.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining

compliance, and are required of all affected facilities subject to NESHAP.

Any owner/operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 254 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: New and existing facilities that manufacture a miscellaneous organic chemical and are located at, or are part of, major sources of hazardous air pollutant (HAP) emissions.

Estimated Number of Respondents: 257.

Frequency of Response: One-time, semiannually, and on occasion.

Estimated Total Annual Hour Burden: 416,830.

Estimated Total Annual Cost: \$6,132,909, includes \$670,256 annualized capital/startup costs and \$5,462,653 O&M costs.

Changes in the Estimates: There is an increase of 399,085 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The increase in burden from the most recently approved ICR is primarily due to the fact that this is the first ICR prepared after the compliance date. In the previous ICR, annual burden hours and costs associated with one-time activities were phased in over the course of the three-year period. In this ICR, existing sources have been phased into compliance and are subject to on-

going requirements, and new sources are subject to various one-time activities. Additionally, some burden hours from the previous ICR were deleted because it was not consistent with the concept of burden.

Dated: September 12, 2006.

Science Advisory Board (SAB) Staff Office; Notification of Multiple Upcoming SAB Hypoxia Advisory Panel Teleconferences

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces seven upcoming public teleconferences of the SAB Hypoxia Advisory Panel Subgroups.

DATES: The dates for the seven teleconferences are:

(1) SAB Hypoxia Advisory Panel Subgroup 1 Characterization of the Causes Hypoxia—October 17, 2006 from 2 to 5 p.m. Eastern Standard Time, and November 15, 2006 from 9 a.m. to 12 p.m. Eastern Standard Time;

(2) SAB Hypoxia Advisory Panel Subgroup 2 Characterization of Nutrient

Fate, Transport, and Sources—October 16 and November 21, 2006 from 10 a.m. to 1 p.m. Eastern Standard Time; and

(3) SAB Hypoxia Advisory Panel Subgroup 3 Scientific Basis for Goals and Management Options—October 6, October 30, and November 27, 2006 1 to 4 p.m. Eastern Standard Time.

FOR FURTHER INFORMATION CONTACT:

Members of the public who wish to obtain the teleconference call-in numbers and access codes to participate in the teleconferences may contact the following individuals.

(1) For the SAB Hypoxia Advisory Panel Subgroup 1—Characterization of the Causes of Hypoxia teleconferences, contact Dr. Thomas Armitage, Designated Federal Officer (DFO), by telephone at (202) 343-9995, fax at (202) 233-0643, or e-mail at armitage.thomas@epa.gov.

(2) For the SAB Hypoxia Advisory Panel Subgroup 2—Characterization of Nutrient Fate, Transport, and Sources teleconferences, contact Mr. David Wangsness, DFO, by telephone at (202) 343-9975, fax at (202) 233-0643, or e-mail at wangsness.david@epa.gov.

(3) For the Hypoxia Advisory Panel Subgroup 3—Scientific Basis for Goals and Management Options SAB teleconferences, contact Dr. Holly Stallworth, DFO, by telephone at (202) 343-9867, fax at (202) 233-0643, or e-mail at stallworth.holly@epa.gov. General information about the SAB, as well as any updates concerning the teleconferences announced in this notice, may be found on the SAB Web site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the SAB Hypoxia Advisory Panel will hold seven public teleconferences to allow its three subgroups to develop issues related to advancements in the state of the science regarding hypoxia in the Northern Gulf of Mexico. Issues resulting from the public teleconferences will be further discussed by the entire SAB Hypoxia Advisory Panel at a future public meeting to be announced in a separate **Federal Register** notice. The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.
