Analysis Of Comments Received

All issues raised in this review are addressed in the *Final Decision Memorandum*, dated concurrently with this notice and which is hereby adopted by this notice. The issues discussed in the *Final Decision Memorandum* include the rejection of untimely submitted new factual information, the likelihood of continuation or recurrence of a countervailable subsidy and the net countervailable subsidy likely to prevail. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendation in this public memorandum which is on file in CRU. In addition, a complete version of the *Final Decision Memorandum* can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>. The paper copy and electronic version of the *Final Decision Memorandum* are identical in content.

Final Results Of Review

The Department determines that revocation of the CVD order would not be likely to lead to continuation or recurrence of a countervailable subsidy. As we recognized in the *Preliminary Results*, three of the six programs previously found to be countervailable have been terminated. For one of the remaining programs, the UK Regional Development Grants (RDG) program, the Department now determines that there is no likelihood that subsidization will continue or recur. In light of the change in our likelihood determination for the RDG program, we have re-examined our preliminary findings for the European Regional Development Fund (ERDF) Aid and the European Coal and Steel Community (ECSC) Article 54 Loans/Interest Rebates programs, the only remaining subsidies that provide a basis for our likelihood determination. As we noted in the *Preliminary Results*, the combined benefits from those programs have never been above zero. Therefore, we find that there would be no likelihood of continuation or recurrence of a countervailable subsidy were the order to be revoked. *See e.g., Final Results of Full Sunset Review: Brass Sheet and Strip from France*, 71 FR 10651 (March 2, 2006), and accompanying *Issues and Decisions Memorandum*. Our full analysis is included in the *Final Decision Memorandum*.

As a result, we are revoking this order effective December 15, 2005, the fifth anniversary of the date of publication in the **Federal Register** of the notice of continuation of the CVD order on CTL plate from the UK. *See Notice of Continuation of Antidumping and Countervailing Duty Orders on Certain Carbon Steel Products from Australia, Belgium, Brazil, Canada, Finland, France, Germany, Japan, South Korea, Mexico, Poland, Romania, Spain, Sweden, Taiwan, and the United Kingdom*, 65 FR 78469 (December 15, 2000). We will notify the International Trade Commission of these results. Furthermore, within 15 days of the publication of this notice, we will instruct U.S. Customs and Border Protection to terminate suspension of liquidation, effective December 15, 2005.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in

accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these final results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: September 27, 2006.
