Proposal to approve under OMB delegated authority the extension for three years, with revision, of the following reports:

Report title: The Government Securities Dealers Reports: Weekly Report of Dealer Positions (FR 2004A), Weekly Report of Cumulative Dealer Transactions (FR 2004B), Weekly Report of Dealer Financing and Fails (FR 2004C), Weekly Report of Specific Issues (FR 2004SI), Daily Report of Specific Issues (FR 2004SD), and Daily Report of Dealer Activity in Treasury Financing (FR 2004WI)

Agency form number: FR 2004

OMB control number: 7100-0003

Frequency: Weekly, Daily

Reporters: Primary dealers in the U.S. government securities market

Annual reporting hours: FR 2004A, 1,716 hours; FR 2004B, 2,288 hours; FR

2004C, 1,430 hours; FR 2004SI, 2,288 hours; FR 2004SD, 1,100 hours; FR 2004WI, 3,520 hours

Estimated average hours per response: FR 2004A, 1.5 hours; FR 2004B, 2.0 hours; FR 2004C, 1.25 hours; FR 2004SI, 2.0 hours; FR 2004SD, 2.0 hours; FR 2004WI, 1.0 hour

Number of respondents: 22

General description of report: This information collection is required to obtain or retain a benefit [12 U.S.C. §§ 248(a)(2), 353-359, and 461(c)] and is given confidential treatment [5 U.S.C. §§ 552 (b)(4) and (b)(8)].

Abstract: The FR 2004A collects weekly data on dealers' outright positions in Treasury and other marketable debt securities. The FR 2004B collects cumulative weekly data on the volume of transactions made by dealers in the same instruments for which positions are reported on the FR 2004A. The FR 2004C collects weekly data on the amounts of dealer financing and fails. The FR 2004SI collects weekly data on outright, financing, and fails positions in current or on-the-run issues. Under certain circumstances this information is also collected on a daily basis on the FR 2004SD for on-the-run and off-the-run securities. The FR 2004WI collects daily data on positions in to-be-issued Treasury coupon securities, mainly the trading on a when-issued delivery basis. Data from the FR 2004SI, SD and WI are available to the Interagency Working Group (IAWG), which includes the Department of the Treasury, the Federal Reserve Bank of New York, the Federal Reserve Board, the Securities and Exchange Commission, and the Commodity Futures Trading Commission.

Current actions: The Federal Reserve proposes to revise the FR 2004 information collection by adding an attestation requirement to each of the reporting forms. The addition of this attestation requirement from a senior officer would help ensure that the proper level of review occurs before FR 2004 data are submitted, and help to mitigate the risk of the Federal Reserve publishing misleading data. Since all FR 2004 data are sent electronically through the Internet Electronic Submission (IESUB) system to the Federal Reserve, the proposed signature requirement would be completed weekly and retained with the primary dealer's files. To verify that the proper level of management is attesting to the accuracy of the data, an annual requirement to submit a copy of the attestation to the Federal Reserve for all of the FR 2004 reporting forms is also being proposed. These attestations

would be required with the submission of the last as-of date of each year.

In addition, the Federal Reserve proposes to revise the FR 2004SI and FR 2004SD reporting forms by replacing the two counterparty data items "with broker-dealer" and "with all others" with two data items "Specific" and "General" for financing transactions. The greater detail on the type of transaction used to fund a position would provide more useful information than the identity type of the counterparty and would improve the IAWG's ability to conduct Treasury market surveillance.

Robert deV. Frierson,

Deputy Secretary of the Board.

SUPPLEMENTARY INFORMATION:

A. Background

The enactment of the Federal Acquisition Streamlining Act (FASA) of 1994, made contractor performance information a mandatory evaluation factor for all procurements. This is an important factor in making best value decisions in the acquisition of goods and services. In order to do this, agencies moved out in different directions to share the performance data they collected individually. There was no concerted effort to share data Governmentwide. It has long been a vulnerability that Government agencies would award to a vendor who owes another part of the Government money or services, or is in the process of being debarred. This was due to the fact that information about performance was maintained at the local contracting office level.

Evaluating contractor performance is also useful as a tool to encourage outstanding performance throughout the
