[EPA-R04-OAR-2006-0577-200624(b); FRL-8248-8]

**Approval and Promulgation of Implementation Plans; Georgia: Removal of Douglas County Transportation Control Measure****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** On September 19, 2006, the State of Georgia's Department of Natural Resources, through the Georgia Environmental Protection Division (GA EPD), submitted a final State Implementation Plan (SIP) revision to remove the transportation control measure (TCM) related to a compressed natural gas refueling station/park and ride transportation center project in Douglas County, Georgia. This TCM was originally submitted by GA EPD for inclusion into the Atlanta portion of the Georgia SIP on August 29, 1997. EPA approved this TCM into the Georgia SIP through direct final rulemaking published in the **Federal Register** on June 24, 1998 (effective on August 10, 1998). Subsequently, the project sponsor determined that the equipment necessary to implement this project is no longer available, and thus, this TCM cannot be implemented as originally anticipated. No SIP credit was claimed for this program, nor were emission benefits ever realized for this TCM because it was never implemented. Through this rulemaking, EPA is proposing to approve the removal of this TCM from the Atlanta portion of the Georgia SIP because this SIP revision meets Clean Air Act requirements. In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** Written comments must be received on or before December 28, 2006.

**Florida: Lockheed Martin Aeronautics Company****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** Pursuant to section 110 of the Clean Air Act (CAA), 42 U.S.C. 7410, EPA is proposing to approve a revision to the Florida State Implementation Plan (SIP) submitted by the Florida Department of Environmental Protection (FDEP) on June 8, 2005. The revision is source-specific to the Lockheed Martin Aeronautics Company (LM), located in Pinellas County, Florida, and regards that facility's compliance with Florida's Surface Coating of Miscellaneous Metal Parts and Products Reasonably Available Control Technology rule, found at Florida Administrative Code (F.A.C.) Rule 62-296.513 (FL MMPP Rule). The source-specific SIP revision seeks to allow LM to employ as reasonably available control technology (RACT) the control techniques outlined in EPA's December 1997, "Aerospace Control Technique Guidelines" (EPA's Aerospace CTG), instead of the RACT described in the FL MMPP Rule. The source-specific SIP revision is approvable because it meets the standards for approval described in section 110(l) of the CAA.

In the Rules Section of this **Federal Register**, the EPA is taking direct final action to approve the Florida SIP revision without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final action. If no significant, material, and adverse comments are received in response to the direct final action, no further activity is contemplated. If EPA receives adverse comments, the direct final action will be withdrawn and all public comments received will be addressed in a subsequent final action based on this proposed action. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

[EPA-R01-OAR-2006-0345; FRL-8237-9]

**Approval of the Clean Air Act, Section 112(l), Authority for Hazardous Air Pollutants: Asbestos Management and Control; State of New Hampshire Department of Environmental Services**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA is proposing to approve New Hampshire Department of Environmental Services' (NH DES) request to implement and enforce its regulation entitled "Asbestos Management and Control" in lieu of the Asbestos National Emission Standard for Hazardous Air Pollutants (Asbestos NESHAP) as it applies to certain asbestos-related activities. Upon approval, NH DES' rule will be federally enforceable and will apply to all sources that otherwise would be regulated by the Asbestos NESHAP with the exception of inactive waste disposal sites that ceased operation on or before July 9, 1981. These inactive disposal sites are already regulated by State rules that were approved by EPA on May 23, 2003. NH DES' request seeks to adjust the federal rules by demonstrating the equivalency of its rules to the federal requirements.

**DATES:** EPA must receive written comments by December 28, 2006.

**ADDRESSES:** Submit your comments, identified by Docket ID Number EPA-R01-OAR-2006-0345 by one of the following methods:

RIN 2105-AD65

### Standard Time Zone Boundary in Pulaski County, IN

**AGENCY:** Office of the Secretary (OST), the Department of Transportation (DOT).

**ACTION:** Notice of Proposed Rulemaking.

**SUMMARY:** DOT proposes to relocate the time zone boundary in Indiana to move Pulaski County from the Central Time Zone to the Eastern Time Zone. This action is taken at the request of the County Commissioners and the County Council. DOT requests comment on whether this change would serve the convenience of commerce, the statutory standard for a time zone change. Persons supporting or opposing the change should not assume that the change will be made merely because DOT is making the proposal. Our decision in the final rule will be made
