

(DOE) defense nuclear facilities at Los Alamos National Laboratory (LANL). The Board anticipates testimony from the incumbent management and operation (M&O) contractor for LANL, the University of California, as well as from the contractor group, Los Alamos National Security, LLC (LANS), which was recently selected to assume the M&O contractor function in June 2006. Under the Atomic Energy Act of 1954, as amended, the Board is required, among other things, to review and evaluate the content and implementation of standards relating to the design, construction, operation, and decommissioning of DOE defense nuclear facilities, including all applicable DOE orders, regulations, and requirements pertaining to such facilities. The Board is also required to investigate any event or practice at DOE defense nuclear facilities which the Board determines has adversely affected, or may adversely affect, the health and safety of the workers and the public. In this March 22nd hearing and meeting, the Board will examine how NNSA and LANS will ensure adequate protection of the public health and safety, including that of the workers, and safety performance at LANL defense nuclear facilities. The Board will further explore health and safety-related corrective actions by NNSA and the incumbent and newly selected M&O contractors as those actions are implemented during and after the new M&O contract transition period. The Board will collect information needed to understand and address any health or safety concerns that may require Board action with respect to operations at LANL defense nuclear facilities. This will include, but is not limited to, presentations from NNSA and M&O contractor senior management officials and NNSA Los Alamos Site Office personnel. The public hearing portion of this proceeding is authorized by 42 U.S.C. 2286b.

SUPPLEMENTARY INFORMATION: Requests to speak at the hearing and meeting may be submitted in writing or by telephone. The Board will post a
