

Note for Mail or Hand Delivery of Paper Applications: If you mail or hand deliver your application to the Department—

(1) You must indicate on the envelope and—if not provided by the Department—in Item 11 of the SF 424 the CFDA number, including suffix letter, if any, of the competition under which you are submitting your application; and

(2) The Application Control Center will mail to you a notification of receipt of your grant application. If you do not receive this notification within 15 business days from the application deadline date, you should call the U.S. Department of Education Application Control Center at (202) 245-6288.

V. Application Review Information

Selection Criteria: The selection criteria for evaluating applications for this program are from 34 CFR 75.210 of EDGAR and are listed in the application package.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* The Fund for the Improvement of Postsecondary Education (FIPSE) program has developed two performance measures that are considered indicators of the success of the program as a whole: (1) The extent to which funded projects are being replicated (i.e., adopted or adapted by others); and (2) the manner in which projects are being institutionalized and continued after

funding. However, different indicators will be used to assess the success of the European Union-United States Atlantis Program, specifically, (1) The percentage of students pursuing a joint or dual degree who persist from one academic year to the next (persistence); and (2) the percentage of students who graduate within the project's stated time for completing a joint or dual degree (graduation). If funded, you will be asked to collect and report data from your project on steps taken toward achieving the goals of persistence and graduation. Consequently, applicants are advised to include these two outcomes in conceptualizing the design, implementation, and evaluation of their proposed projects.

DEPARTMENT OF ENERGY

Office of International Regimes and Agreements; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Notice of Proposed Subsequent Arrangement.

SUMMARY: This notice is being issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed "subsequent arrangement" under the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy between the United States and Argentina and the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy between the United States and Brazil.

This subsequent arrangement concerns the retransfer of two fission counters from the Instrumentation and Control Department, National Atomic Energy Commission, Argentina, to the IPEN/MB/01 Research Reactor, San Pablo, Brazil. The fission counters each contain .01 g U235. IPEN/MB/01 Research Reactor is authorized to receive nuclear material pursuant to the U.S.-Brazil Agreement for Cooperation on Peaceful Uses of Nuclear Energy.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than 15 days after the date of publication of this notice.

Dated: March 29, 2007.

DEPARTMENT OF ENERGY

Office of International Regimes and Agreements; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Notice of Proposed Subsequent Arrangement.

SUMMARY: This notice is being issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed "subsequent arrangement" under the

Agreement for Cooperation between the Government of the United States of America and the Republic of Korea Concerning Civil Uses of Atomic Energy, signed November 24, 1972, as amended.

This subsequent arrangement concerns the renewal of the 2002 Joint Determination by the Government of the United States of America and the Government of the Republic of Korea pursuant to Article VIII(C) of that Agreement. This arrangement reaffirms that the provisions of Article XI of the Joint Determination may be effectively applied for the alteration in form or content of U.S.-origin nuclear material contained in irradiated nuclear fuels from pressurized water reactors, CANDU reactors, a research reactor at the Post Irradiation Examination Facility (PIEF), the Irradiated Material Examination Facility (IMEF), the DUPIC Fuel Fabrications Facility (DFDF), and identified analytical laboratories at the Headquarters of the Korea Atomic Energy Research Institute, in accordance with the plan contained in KAERI/AR-765/2007, dated January 30, 2007, and KAERI/AR-766/2007, dated January 31, 2007. Any activities additional to the plan or changes in the equipment in the PIEF, IMEF, or the DFDF will be reviewed by both parties to ensure the general consistency with the scope and objectives of the Joint Determination. Reference is made to the Joint Determination signed by the Government of the United States of America and the Government of the Republic of Korea on March 29, 1996, on April 8, 1999, and on January 29, 2002, covering similar activities at the PIEF, the IMEF, and the DFDF. These facilities are found acceptable to both parties pursuant to Article VIII(C) of the Agreement for the sole purpose of alteration in form or content of irradiated fuel elements for post-irradiation examination and for research, development and manufacture of DUPIC fuel powders, pellets and elements for the period ending March 31, 2012.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than 15 days after the date of publication of this notice.
