Title: Annual Survey of Refugees.

OMB No.: 0970-0033.

Description: The Annual Survey of Refugees collects information on the social and economic circumstances of a random sample of refugees, Amerasians, and entrants who arrived in the United States in the five years prior to the date of the survey. Respondents: Refugees, entrants, Amerasians, and Havana parolees.

Title of Proposal: Office of Healthy Homes and Lead Hazard Control Data Collection-Quality Assurance Plans.

OMB Control Number: N/A.

Description of the need for the information and proposed use: HUD's Office of Healthy Homes and Lead Hazard Control requires its Healthy Homes Demonstration and Technical Studies grantees, Lead Technical Studies grantees, and selected contractors to submit quality assurance plans to the Office for approval before they initiate data collection. This is required because the respondents are conducting research or significant evaluation activities, and quality assurance procedures are required to ensure the accuracy and validity of data. The use of quality assurance plan templates helps to ensure that quality assurance activities are well planned and thorough, and standardizes the formatting of the plans, which aids both HUD staff in their review and the respondents in plan development. The use of different templates for technical studies and demonstration projects was designed to reduce respondent burden by requiring more detailed information for the technical studies (research) projects; consistent with their more rigorous quality assurance requirements.
