Description: Individuals filing for compensation benefits with the Office of Workers' Compensation Programs (OWCP) may be represented by an attorney or other representative. The representative is entitled to request a fee for services under 20 CFR 10.700–703 (Federal Employees' Compensation Act/FECA) and 20 CFR 702.132 (Longshore and Harbor Workers' Compensation Act). The fee must be approved by the OWCP before any demand for payment can be made by the representative.

Under the FECA, the representative is required to submit for review any fees resulting from representing the claimant in filing for benefits. The program does not make payment, but reviews the fee request to ensure that it is consistent with services provided, and with customary local charges for similar services. Fee requests received have been used to approve attorney's fees, allowing the attorney to pursue payment of an appropriate amount from the claimant. If the fee requested is considered excessive, in view of the criteria outlined in the regulations, the fee approved would be reduced accordingly.

Description: The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*, the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* All three of these statutes require that OWCP pay for covered medical treatment provided to beneficiaries; this medical treatment can include medicinal drugs dispensed by pharmacies. In order to determine

whether amounts billed for drugs are appropriate, OWCP must receive 19 data elements, including the name of the patient/beneficiary, the National Drug Code (NDC) number of the drugs prescribed, the quantity provided, the prescription number and the date the prescription was filled. The regulations implementing these statutes require the collection of information needed to enable OWCP to determine if bills for drugs submitted directly by pharmacies, or as reimbursement requests submitted by claimants, should be paid. (20 CFR 10.801, 30.701, 725.701 and 725.705).

There is no standardized paper form for submission of the billing information collected in this ICR. Over the past several years, the majority of pharmacy bills submitted to OWCP have been submitted electronically using one of the industry-wide standard formats for the electronic transmission of billing data through nationwide data clearinghouses devised by the National Council for Prescription Drug Programs (NCPDP). However, since some pharmacy bills are still submitted using a paper-based bill format, OWCP will continue to accept any of the many paper-based bill formats still used by some providers so long as they contain the data elements needed for processing the bill. None of the paper-based or electronic billing formats have been designed by or provided by OWCP; they are billing formats commonly accepted by other Federal programs and in the private health insurance industry for drugs. Nonetheless, the three programs (FECA, BLBA and EEOICPA) provide instructions for the submission of necessary pharmacy bill data elements in provider manuals distributed or made available to all pharmacies enrolled in the programs.

The required data elements are used by OWCP and contractor bill processing staff to process paper and electronic bills for drugs dispensed by pharmacies. To enable OWCP and its contractor staff to consider the appropriateness of the requested payment in a timely fashion, it is essential that bill submissions include the data elements needed to evaluate the bill, such as the NDC number and the pharmacy's provider identification number. To do this, OWCP evaluates the same data elements that are commonly evaluated by other Federal agencies and private health insurance carriers. If all the billing data elements required by OWCP are not

collected, the contractor staff cannot process the bill.

Acting Departmental Clearance Officer.
