BILLING CODE 5001-01-C

**DEPARTMENT OF DEFENSE****GENERAL SERVICES  
ADMINISTRATION****NATIONAL AERONAUTICS AND  
SPACE ADMINISTRATION****[OMB Control No. 9000-0075]****Federal Acquisition Regulation;  
Information Collection; Government  
Property**

**AGENCIES:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding a revision to an existing OMB clearance (9000-0075).

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to revise a currently approved information collection requirement concerning Government Property. This OMB clearance expires on February 28, 2010.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

**DATES:** Submit comments on or before June 11, 2007.

**ADDRESSES:** Submit comments, including suggestions for reducing this burden to the General Services Administration, FAR Secretariat (VIR), 1800 F Street, NW, Room 4035, Washington, DC 20405.

**FOR FURTHER INFORMATION CONTACT:** Jeritta Parnell, Contract Policy Division, GSA (202) 501-4082.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

Property, as used in Part 45, means all property, both real and personal.

Government property includes both Government-furnished property and contractor-acquired property.

Contractors are required to manage (control, use, preserve, protect, repair, and maintain) Government property in its possession consistent with voluntary consensus standards or in the absence of such standards, industry leading practices and standards for property management because the contractor is responsible and accountable for all Government property under the provisions of the contract including property located with subcontractors.

Contractors shall develop property management plans and systems to obtain best value.

This clearance covers the following requirements:

(a) FAR 45.606-1 requires a contractor to submit inventory schedules.

(b) FAR 45.606-3(a) requires a contractor to correct and resubmit inventory schedules as necessary.

(c) FAR 52.245-1(f)(1)(ii) requires contractors to receive, record, identify and manage Government property.

(d) FAR 52.245-1(f)(1)(iii) requires contractors to create and maintain records of all Government property accountable to the contract.

(e) FAR 52.245-1(f)(1)(iv) requires contractors to periodically perform, record, and report physical inventories during contract performance.

(f) FAR 52.245-1(f)(1)(vi) requires contractors to have a process to create and provide reports.

(g) FAR 52.245-1(f)(1)(viii) requires contractors to promptly disclose and report Government Property in its possession that is excess to contract performance.

(h) FAR 52.245-1(f)(1)(ix) requires contractors to disclose and report to the Property Administrator the need for replacement and/or capital rehabilitation.

(i) FAR 52.245-1(f)(1)(x) requires contractors to perform and report to the Property Administrator contract property closeout.

(j) FAR 52.245-1(f)(2) requires contractors to establish and maintain source data, particularly in the areas of recognition of acquisitions and dispositions of material and equipment.

(k) FAR 52.245-1(j)(4) requires contractors to submit inventory disposal schedules to the Plant Clearance Officer.

(l) FAR 52.245-9(d) requires a contractor to identify the property for which rental is requested.

### Department of the Army, Corps of Engineers

#### Availability of a Tiered Final Environmental Impact Statement Containing a Draft Air Quality General Conformity Determination for the Proposed Construction of a Dredged Material Containment Facility in the Patapsco River, at Masonville, Baltimore City, MD

**AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DOD.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with requirements of the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (USACE), Baltimore District, has prepared a Final Environmental Impact Statement (FEIS) for the proposed construction of a dredged material containment facility (DMCF) by the Maryland Port Administration (MPA). This FEIS was prepared as part of the submission of MPA's application for a Department of the Army permit to construct the facility

in the Patapsco River, Baltimore City, MD. This application will be evaluated pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

The preferred alternative is for the construction of a stone, sand, and cofferdam structure that would impact approximately 131 acres of waters of the United States, including jurisdictional wetlands. The structure would be initially constructed to 10 feet above the mean lower low water (MLLW) elevation, with a future temporary elevation to 42 feet above MLLW, and an ultimate elevation of 36 feet above MLLW. The project would also include mechanical dredging of approximately 1.5 million cubic yards of overburden material within the footprint of the proposed disposal site, and the placement of this material at the Hart Miller Island disposal site, Baltimore County, MD. On-site (Masonville borrow) and offsite borrow material (Seagirt borrow material and upland borrow) would be used for the construction of the containment facility. The Seagirt borrow material would come from the Seagirt Marine Terminal Access Channel deepening and widening project. The Draft EIS was advertised in the **Federal Register** on May 19, 2006 (71 FR 29128). A supplement to the Draft EIS was advertised in the **Federal Register** on June 30, 2006 (71 FR 37545). The need to prepare a Supplement was due to the applicant's proposal to change the source of borrow material for the proposed construction of the preferred alternative to include the use of suitable material dredged from the Seagirt Marine Terminal Access Channels. The FEIS evaluates the construction of a DMCF with a footprint of 141 acres, which includes 131 acres of tidal open water and wetlands. The DMCF would be constructed to an initial height of 10 feet above MLLW and then raised to a height of 42 feet above MLLW before being graded to a final height of 36 feet MLLW, which would be the same height as the adjacent land. A detailed description of the proposed project and effects to the human environment are discussed in the FEIS for the Masonville DMCF. The FEIS outlines measures the applicant may implement to address impacts to air quality resulting from activities described in the permit application.

**ADDRESSES:** Please send written comments to the U.S. Army Corps of Engineers, Baltimore District, Attn: Mr. Jon Romeo, CENAB-OP-RMN, P.O. Box 1715, Baltimore, MD 21203-1715. You may submit electronic comments to
