The areas described aggregate 4,138.52 acres, more or less, in Routt County according to U.S. Government Survey and James B. Ackerman, R.L.S. #16394, of Emerald Mountain Surveys, Inc., Steamboat Springs, CO 80477.

The BLM petition/application has been approved by the Assistant Secretary of the Interior. Therefore it constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1–3(e)).

The purpose of the withdrawal would be to protect the scenic, recreation, water quality, and wildlife habitat values on the

lands newly acquired in the Emerald Mountain Land Exchange and achieve the management objectives of the BLM Little Snake Field Office Resource Management Plan Amendment.

The use of a right-of-way, an interagency or cooperative agreement would not adequately constrain non-discretionary uses that could irrevocably affect the resource values of the described lands.

There are no suitable alternative sites, as the described lands contain the resource values that need protection.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

The potential for mineral development on the described lands is low.

Records relating to the proposed withdrawal can be examined by contacting John Beck at the above address or phone number.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM Colorado State Director at the address listed above.

Comments, including names and street addresses of respondents, will be available for public review at the BLM Colorado State Office at the address listed during regular business hours, 7:45 a.m. to 4:15 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the BLM Colorado State Director at the address listed above within 90 days from the

date of publication of this notice. If the authorized officer determines a public meeting will be held, a notice of the time and place will be published in the **Federal Register** and a local newspaper at least 30 days before the scheduled date of the meeting.

Licenses, permits, cooperative agreements, and other discretionary land use authorizations may be allowed with the approval of an authorized officer of the BLM during the segregative period.

This withdrawal proposal will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved prior to that date.

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Notice of the availability of environmental documents, prepared for OCS Mineral Proposals on the Gulf of Mexico OCS.

**SUMMARY:** Minerals Management Service (MMS), in accordance with Federal Regulations that implement the National Environmental Policy Act (NEPA), announces the availability of NEPA-related Site-Specific Environmental

Assessments (SEA) and Findings of No Significant Impact (FONSI), prepared by MMS for the following oil and gas activities proposed on the Gulf of Mexico OCS.

**FOR FURTHER INFORMATION CONTACT:** Public Information Unit, Information Services Section at the number below. Minerals Management Service, Gulf of Mexico OCS Region, *Attention:* Public Information Office (MS 5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123–2394, or by calling 1–800–200–GULF.

**SUPPLEMENTARY INFORMATION:** MMS prepares SEAs and FONSI for proposals that relate to exploration for and the development/production of oil and gas resources on the Gulf of Mexico OCS. These SEAs examine the potential environmental effects of activities described in the proposals and present MMS conclusions regarding the significance of those effects. Environmental Assessments are used as a basis for determining whether or not approval of the proposals constitutes major Federal actions that significantly affect the quality of the human environment in the sense of NEPA Section 102(2)(C). A FONSI is prepared in those instances where MMS finds that approval will not result in significant effects on the quality of the human environment. The FONSI briefly presents the basis for that finding and includes a summary or copy of the SEA.

This notice constitutes the public notice of availability of environmental documents required under the NEPA Regulations.

This listing includes all proposals for which the Gulf of Mexico OCS Region prepared a FONSI in the period subsequent to publication of the preceding notice.
