## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 07-038]

### Notice of Information Collection

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

**DATES:** All comments should be submitted within 60 calendar days from the date of this publication.

**ADDRESSES:** All comments should be addressed to Mr. Walter Kit, National Aeronautics and Space Administration, Washington, DC 20546-0001.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Mr. Walter Kit, NASA PRA Officer, NASA Headquarters, 300 E Street, SW., JE0000, Washington, DC 20546, (202) 358-1350, [Walter.Kit-1@nasa.gov](mailto:Walter.Kit-1@nasa.gov).

**SUPPLEMENTARY INFORMATION:**

### I. Abstract

The National Aeronautics and Space Administration (NASA) is requesting approval for a new collection for the Exploration Systems Mission Directorate Student Internship program. NASA must elect candidates for a competitive process for student internship, requiring personal information on the application. The students must meet the basic eligibility requirements of: full student enrollment at an accredited college or university in the U.S., be a U.S. citizen, and have a Grade Point Average (GPA) of 3.0 on a scale of 4.0.

### II. Method of Collection

NASA will utilize a Web-based on-line application form for the information collection.

### III. Data

*Title:* Exploration Systems Mission Directorate Student Internship Program Application.

*OMB Number:* 2700-XXXX.

*Type of review:* New Collection.

*Affected Public:* Individuals or households.

*Estimated Number of Respondents:* 292.

*Estimated Time per Response:* 1 hour.

*Estimated Total Annual Burden Hours:* 292.

*Estimated Total Annual Cost:* \$0.

### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

**Gary Cox,**

*Acting Deputy Chief Information Officer.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 07-039]

### Notice of Information Collection

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

**DATES:** All comments should be submitted within 60 calendar days from the date of this publication.

**ADDRESSES:** All comments should be addressed to Mr. Walter Kit, National Aeronautics and Space Administration, Washington, DC 20546-0001.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Mr. Walter Kit, NASA PRA Officer, NASA Headquarters, 300 E Street SW., JE0000, Washington, DC 20546, (202) 358-1350, [Walter.Kit-1@nasa.gov](mailto:Walter.Kit-1@nasa.gov).

**SUPPLEMENTARY INFORMATION:**

### I. Abstract

This information collection is an application form to be considered for a summer internship. Students are required to submit an application package consisting of an application form, a personal essay describing career goals, a parent/guardian permission form for parents to sign approving the child's participation, and a teacher recommendation.

### II. Method of Collection

NASA will utilize a Web-based application form with instructions and other application materials also on-line. However, once the application form and other application materials are downloaded and filled out, the package is mailed in to NASA.

### III. Data

*Title:* INSPIRE (Interdisciplinary National Science Program Incorporating Research and Education Experience) Application.

*OMB Number:* 2700-XXXX.

*Type of Review:* New Collection.

*Affected Public:* Individuals or households.

*Estimated Number of Respondents:* 2000.

*Estimated Time per Response:* 2 hours.

*Estimated Total Annual Burden Hours:* 4000.

*Estimated Total Annual Cost:* \$0.

#### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

BILLING CODE 7510-13-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-250]

### Florida Power and Light Company; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-31, issued to Florida Power and Light Company (the licensee), for operation of the Turkey Point Nuclear Plant, Unit 3, located in Miami-Dade County, Florida.

The proposed amendment would revise Technical Specifications (TSs) 3/4.1.3.1, 3/4.1.3.2, and 3/4.1.3.6 to allow the use of an alternate method of determining rod position for the control rods G-5 and M-6, which have inoperable rod position indicators (RPIs). The method to be used will monitor the stationary gripper coils of G-5 and M-6 Control Rod Drive Mechanisms until repairs can be

conducted, but no later than the next outage, which is scheduled for fall 2007.

The licensee indicated the need for the amendment is due to the unanticipated recent additional failure of the Turkey Point Unit 3 Analog RPI for control rod G-5 in Control Rod Bank A. Additionally, there is a concern that exercising the movable incore detectors every 8 hours (90 times per month) to comply with the compensatory actions required by the current Action Statement a. of TS 3.1.3.2 will result in excessive wear.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Will operation of the facility in accordance with this proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

No. The proposed change provides an alternative method for verifying rod position of control rod M-6 and G-5. The proposed change meets the intent of the current specification in that it ensures verification of position of the control rod once every eight (8) hours. The proposed change provides only an alternative method of monitoring control rod position and does not change the assumption or results of any previously evaluated accident.

Therefore, operation of the facility in accordance with the proposed amendment would not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Will operation of the facility in accordance with this proposed change create the possibility of a new or different kind of accident from any accident previously evaluated?

No. As described above, the proposed change provides only an alternative method of determining the position of Unit 3 control rods M-6 and G-5. No new accident

initiators are introduced by the proposed alternative manner of performing rod position verification. The proposed change does not affect the reactor protection system or the reactor control system. Hence, no new failure modes are created that would cause a new or different kind of accident from any accident previously evaluated.

Therefore, operation of the facility in accordance with the proposed amendments would not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Will operation of the facility in accordance with this proposed change involve a significant reduction in a margin of safety?

No. The bases of Specification 3.1.3.2 state that the operability of the rod position indicators is required to determine control rod positions and thereby ensure compliance with the control rod alignment and insertion limits. The proposed change does not alter the requirement to determine rod position but provides an alternative method for determining the position of the affected rods. As a result, the initial conditions of the accident analysis are preserved and the consequences of previously analyzed accidents are unaffected.

Therefore, operation of the facility in accordance with the proposed amendments would not involve a significant reduction in the margin of safety.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day period provided that its final determination is that the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rulemaking, Directives and Editing Branch, Division
