

Targhee National Forest, 1405 Hollipark Drive, Idaho Falls, ID 83401.

### Nature of Decision To Be Made

Given the purpose and need, the deciding officer will decide whether or not to make a new decision on the Big Bend Ridge Vegetation Management Project and Timber Sale and whether to amend the Targhee Revised Forest Plan.

### Scoping Process

The Forest is now seeking comments on this proposal and will seek comments on the Draft Supplemental Environmental Impact Statement for the Big Bend Ridge Vegetation Project and Timber Sale and the proposed TRFP amendment when it becomes available.

### Comment Requested

This notice of intent initiates the scoping process which guides the development of the supplemental environmental impact statement.

### Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft supplemental environmental impact statement will be prepared for comment. The comment period on the draft supplemental environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions.

*Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft supplemental environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft supplemental environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

(Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21)

#### D. Intergovernmental Review of Applications

Executive Order (EO) 12372, Intergovernmental Review of Federal Programs, applies to this program. Any comments

obtained through the SPOC must be provided to Rural Development for consideration as part of your application. #### V. Application Scoring Criteria Review Information

##### A. Criteria:

All eligible and complete applications will be evaluated based upon the following criteria. Failure to address any one of the following criteria by the application deadline will result in the application being determined ineligible and the application will not be considered for funding. The total points possible for the criteria are 60 and the maximum number of points for each of the following sections is 15. Any application receiving less than 40 total points will not be funded.

1. *Rural Area:* Projects must be in rural areas. Points will be awarded based upon the rural area where the proposed project is located. The Agency will determine if the area meets the rural area definition by using the following Web site: <http://maps.ers.usda.gov/loanlookup/viewer.htm>.

(i) If the proposed project is located in a city or town with a population of at least 15,000 and no more than 25,000 people, 5 points will be awarded;

(ii) If the proposed project is located in a city or town with a population of at least 5,000 and less than 15,000 people, 10 points will be awarded; or

(iii) If the proposed project is located in a city or town with a population of less than 5,000 people, 15 points will be awarded.

(iv) If the proposed project is located in an unincorporated area, 15 points will be awarded.

If the applicant proposes to provide assistance in multiple areas or cities, the applicant must list the areas or cities where the assistance will be provided, the population for each and the amount of assistance of each area. Points will be calculated by using the above point scale for each, with the points awarded using a weighted average of the points for the areas served. The information needed for this criterion may be obtained using the population finder tool at <http://www.census.gov/>.

2. *Per capita personal income:* Points will be awarded proportionally based upon a comparison of the per capita personal income of the county in which a proposed project is located to the state per capital personal income:

(i) If the per capita personal income level in the county where the proposed project will be located is less than 80 percent of the state per capita personal income level, 15 points will be awarded;

(ii) If the per capita personal income level in the county where the proposed project will be located is at least 80 percent and less than 90 percent of the state per capita personal income level, 10 points will be awarded;

(iii) If the per capita personal income level in the county where the proposed project will be located is at least 90 percent and less than 100 percent of the state per capita personal income level, 5 points will be awarded; or

(iv) If the per capita personal income level in the county where the proposed project will be located is equal to or exceeds the state per capita personal income, no points will be awarded.

If the applicant proposes to provide assistance in multiple rural counties, the applicant must list the counties where the assistance will be provided; the percentage of assistance intended to be spent in each county, and the per capita personal income level for each county. Points will be calculated by using the above point score for each county's per capita personal income level, with the total points awarded in proportion to where the assistance is directed. (For example, if 50% of the grant money will be spent in a county where the per capita income is below 80 percent, and 50% will be spent in a county where the per capita income is between 90 and 100 percent, points will be calculated as follows:  $[(.5) * (15) + (.5) * (5) = 10$  points]. The information needed for this criterion may be obtained at <http://www.bea.gov>.

3. *Experience.* Points will be awarded based upon the relevant experience of the staff or the consultants hired to provide the proposed technical assistance.

(i) If the staff or consultants have no experience in providing technical assistance, 0 points will be awarded;

(ii) If each of the staff or consultants has 3 years of experience in providing technical assistance, 5 points will be awarded;

(iii) If each of the staff or consultants have at least 3 years of experience in providing the same type of technical assistance as proposed in the project, 10 points will be awarded; or

(iv) If each of the staff or consultants has at least 3 years of experience in providing the same type of technical assistance as proposed in the project to small, minority agricultural producers, 15 points will be awarded.

Applicants must describe the specific type of technical assistance that each

staff member or consultant has experience in providing. Resumes of each individual staff member or consultant must be included as an attachment listing their experience for the type of technical assistance, along with a list of small, minority agricultural producers they've assisted. The attachments will not count toward the maximum page total. The Agency will compare the described assistance and the resumes to the work plan to determine point total.

4. Number of small, minority agricultural producers assisted. Points will be awarded based upon the number of agricultural, minority producers being assisted.

(i) If the proposed project will benefit 1–10 producers, 5 points will be awarded;

(ii) If the proposed project will benefit 11–50 producers, 10 points will be awarded; or

(iii) If the proposed project will benefit more than 50 producers, 15 points will be awarded.

Applicants must list the number of small, minority agricultural producers that will directly benefit from the assistance provided.

#### *B. Review and Selection Process*

The Agency will screen all proposals to determine whether the application is eligible and sufficiently responsive to the requirements set forth in this notice to allow for an informed review. Applications will be tentatively scored by the State Offices and submitted to the National Office for review and selection. The National Office will review the scores based upon the point allocation specified in this notice. The applications will be funded in scoring rank order and will be submitted to the Administrator in rank order, together with funding level recommendations.
