

include either direct application by the individual challenging the record to the agency (*i.e.*, law enforcement agency) that contributed the questioned information, or direct challenge as to the accuracy or completeness of any entry on the criminal history record to the Assistant Director, Federal Bureau of Investigation Identification Division, Washington, DC 20537-9700 (as set forth in 28 CFR Part 16.30 through 16.34). In the latter case, the FBI forwards the challenge to the agency that submitted the data and requests that agency to verify or correct the challenged entry. Upon receipt of an official communication directly from the agency that contributed the original information, the FBI Identification Division makes any changes necessary in accordance with the information supplied by that agency. The Licensee must provide at least ten (10) days for an individual to initiate an action challenging the results of an FBI criminal history records check after the record is made available for his/her review. The Licensee may make a final determination on access to SGI or unescorted access RAMQC based upon the criminal history record only upon receipt of the FBI's ultimate confirmation or correction of the record. Upon a final adverse determination on access to SGI or unescorted access to RAMQC, the Licensee shall provide the individual its documented basis for denial. Access to SGI or unescorted access to RAMQC shall not be granted to an individual during the review process.

Protection of Information

1. Each Licensee who obtains a criminal history record on an individual pursuant to this Order shall establish and maintain a system of files and procedures for protecting the record and the personal information from unauthorized disclosure.

2. The Licensee may not disclose the record or personal information collected and maintained to persons other than the subject individual, his/her representative, or to those who have a need to access the information in performing assigned duties in the process of determining access to SGI or unescorted access to RAMQC. No individual authorized to have access to the information may re-disseminate the information to any other individual who does not have a need-to-know.

3. The personal information obtained on an individual from a criminal history record check may be transferred to another Licensee if the Licensee holding the criminal history record receives the individual's written request to re-

disseminate the information contained in his/her file, and the gaining Licensee verifies information such as the individual's name, date of birth, social security number, sex, and other applicable physical characteristics for identification purposes.

4. The Licensee shall make criminal history records, obtained under this section, available for examination by an authorized representative of the NRC to determine compliance with the regulations and laws.

5. The Licensee shall retain all fingerprint and criminal history records received from the FBI, or a copy if the individual's file has been transferred, for three (3) years after termination of employment or denial to access SGI or unescorted access to RAMQC. After the required three (3) year period, these documents shall be destroyed by a method that will prevent reconstruction of the information in whole or in part.

[FR Doc. E7-10698 Filed 6-1-07; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[EA 07-002]

In the Matter of all Panoramic and Underwater Irradiators Authorized To Possess Greater Than 370 Terabecquerels (10,000 Curies) Byproduct Material in the Form of Sealed Sources; Order Imposing Compensatory Measures (Effective Immediately)

I

The Licensees identified in Attachment 1 to this Order hold licenses issued in accordance with the Atomic Energy Act of 1954 and 10 CFR part 36 or comparable Agreement State regulations by the U.S. Nuclear Regulatory Commission (NRC or Commission) or an Agreement State authorizing possession of greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources either in panoramic irradiators that have dry or wet storage of the sealed sources or in underwater irradiators in which both the source and the product being irradiated are under water. Commission regulations at 10 CFR 20.1801 or equivalent Agreement State regulations, require Licensees to secure, from unauthorized removal or access, licensed materials that are stored in controlled or unrestricted areas. Commission regulations at 10 CFR 20.1802 or equivalent Agreement States regulations, require Licensees to control and maintain constant surveillance of

licensed material that is in a controlled or unrestricted area and that is not in storage.

II

On September 11, 2001, terrorists simultaneously attacked targets in New York, NY, and Washington, DC, utilizing large commercial aircraft as weapons. In response to the attacks and intelligence information subsequently obtained, the Commission issued a number of Safeguards and Threat Advisories to its Licensees in order to strengthen Licensees' capabilities and readiness to respond to a potential attack on a nuclear facility. The Commission has also communicated with other Federal, State and local government agencies and industry representatives to discuss and evaluate the current threat environment in order to assess the adequacy of security measures at licensed facilities. In addition, the Commission has been conducting a review of its safeguards and security programs and requirements.

As a result of its consideration of current safeguards and license requirements, as well as a review of information provided by the intelligence community, the Commission has determined that certain compensatory measures are required to be implemented by Licensees as prudent measures to address the current threat environment. Therefore, the Commission is imposing the requirements, as set forth in Attachment 2¹ on all Licensees identified in Attachment 1² of this Order who currently possess, or have near term plans to possess, greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources. These requirements, which supplement existing regulatory requirements, will provide the Commission with reasonable assurance that the public health and safety and common defense and security continue to be adequately protected in the current threat environment.

Attachment 3 of this Order contains the requirements for fingerprinting and criminal history record checks for individuals when licensee's reviewing official is determining access to Safeguards Information or unescorted

¹ Attachment 2 contains some requirements that are SAFEGUARDS INFORMATION, and can not be released to the public, and have therefore been redacted. The remainder of the requirements contained in Attachment 2 that are not SAFEGUARDS INFORMATION will be released to the public.

² Attachment 1 contains sensitive information and will not be released to the public.

access to the panoramic or underwater irradiator sealed sources. These requirements will remain in effect until the Commission determines otherwise.

The Commission recognizes that Licensees may have already initiated many measures set forth in Attachment 2 to this Order in response to previously issued advisories or on their own. It is also recognized that some measures may not be possible or necessary at some sites, or may need to be tailored to accommodate the Licensees' specific circumstances to achieve the intended objectives and avoid any unforeseen effect on the safe use and storage of the sealed sources.

Although the additional security measures implemented by the Licensees in response to the Safeguards and Threat Advisories have been adequate to provide reasonable assurance of adequate protection of public health and safety, the Commission concludes that the security measures must be embodied in an Order consistent with the established regulatory framework. Some of the security measures contained in Attachment 2 of this Order contain Safeguards Information and will not be released to the public. The Commission has broad statutory authority to protect and prohibit the unauthorized disclosure of Safeguards Information. Section 147 of the Atomic Energy Act of 1954, as amended, grants the Commission explicit authority to "issue such orders, as necessary to prohibit the unauthorized disclosure of safeguards information * * *." This authority extends to information concerning special nuclear material, source material, and byproduct material, as well as production and utilization facilities. Licensees must ensure proper handling and protection of Safeguards Information to avoid unauthorized disclosure in accordance with the specific requirements for the protection of Safeguards Information contained in Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-06-241). The Commission hereby provides notice that it intends to treat all violations of the requirements contained in Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-06-241), applicable to the handling and unauthorized disclosure of Safeguards Information as serious breaches of adequate protection of the public health and safety and the common defense and security of the United States. Access to Safeguards Information is limited to those persons who have established a need-to-know the information, are

considered to be trustworthy and reliable, have been fingerprinted and undergone a Federal Bureau of Investigation (FBI) identification and criminal history records check in accordance with the NRC's "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information" (EA-06-242). A need-to-know means a determination by a person having responsibility for protecting Safeguards Information that a proposed recipient's access to Safeguards Information is necessary in the performance of official, contractual, or licensee duties of employment. Individuals who have been fingerprinted and granted access to Safeguards Information by the reviewing official under the NRC's "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information" (EA-06-242) do not need to be fingerprinted again for purposes of being considered for unescorted access.

In order to provide assurance that the Licensees are implementing prudent measures to achieve a consistent level of protection to address the current threat environment, all Licensees who hold licenses issued by the U.S. Nuclear Regulatory Commission or an Agreement State authorizing possession greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources in a panoramic or underwater irradiator shall implement the requirements identified in Attachments 2 and 3 to this Order. In addition, pursuant to 10 CFR 2.202, I find that in light of the common defense and security matters identified above, which warrant the issuance of this Order, the public health, safety and interest require that this Order be effective immediately.

III

Accordingly, pursuant to Sections 81, 147, 149, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 10 CFR Part 30 and Part 36, IT IS HEREBY ORDERED, EFFECTIVE IMMEDIATELY, THAT ALL LICENSEES IDENTIFIED IN ATTACHMENT 1 TO THIS ORDER SHALL COMPLY WITH THE REQUIREMENTS OF THIS ORDER AS FOLLOWS:

A. The Licensees shall, notwithstanding the provisions of any Commission or Agreement State regulation or license to the contrary, comply with the requirements described in Attachments 2 and 3 to this Order. The licensee shall immediately start implementation of the requirements in

Attachments 2 and 3 to the Order and shall complete implementation by November 18, 2007, or the first day that greater than 370 terabecquerels (10,000 curies) of byproduct material in the form of sealed sources is possessed, whichever is later.

B. 1. The Licensee shall, within twenty (20) days of the date of this Order, notify the Commission, (1) if it is unable to comply with any of the requirements described in Attachments 2 or 3, (2) if compliance with any of the requirements is unnecessary in its specific circumstances, or (3) if implementation of any of the requirements would cause the Licensee to be in violation of the provisions of any Commission or Agreement State regulation or its license. The notification shall provide the Licensee's justification for seeking relief from or variation of any specific requirement.

2. If the Licensee considers that implementation of any of the requirements described in Attachments 2 or 3 to this Order would adversely impact safe operation of the facility, the Licensee must notify the Commission, within twenty (20) days of this Order, of the adverse safety impact, the basis for its determination that the requirement has an adverse safety impact, and either a proposal for achieving the same objectives specified in the Attachments 2 or 3 requirement in question, or a schedule for modifying the facility to address the adverse safety condition. If neither approach is appropriate, the Licensee must supplement its response to Condition B.1 of this Order to identify the condition as a requirement with which it cannot comply, with attendant justifications as required in Condition B.1.

C. 1. In accordance with the NRC's "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information" (EA-06-242) issued on October 4, 2006, only the NRC-approved reviewing official shall review results from an FBI criminal history records check. The reviewing official shall determine whether an individual may have, or continue to have, unescorted access to the panoramic or underwater irradiator sealed sources that equal or exceed 370 Terabecquerels (10,000 curies). Fingerprinting and the FBI identification and criminal history records check are not required for individuals exempted from fingerprinting requirements under 10 CFR 73.61 [72 Fed. Reg. 4945 (February 2, 2007)]. In addition, individuals who have a favorably decided U.S. Government criminal history records check within the last five (5) years, or

have an active federal security clearance (provided in each case that the appropriate documentation is made available to the Licensee's reviewing official), have satisfied the Energy Policy of 2005 fingerprinting requirement and need not be fingerprinted again for purposes of being considered for unescorted access.

2. No person may have access to Safeguards Information or unescorted access to the panoramic or underwater irradiator sealed sources if the NRC has determined, in accordance with its administrative review process based on fingerprinting and an FBI identification and criminal history records check, either that the person may not have access to Safeguards Information or that the person may not have unescorted access to a utilization facility or radioactive material subject to regulation by the NRC.

D. Fingerprints shall be submitted and reviewed in accordance with the procedures described in Attachment 3 to this Order. Individuals who have been fingerprinted and granted access to Safeguards Information by the reviewing official under Order EA-06-242 do not need to be fingerprinted again for purposes of being considered for unescorted access.

E. The Licensee may allow any individual who currently has unescorted access to the panoramic or underwater irradiator sealed sources, in accordance with this Order, to continue to have unescorted access without being fingerprinted, pending a decision by the reviewing official (based on fingerprinting, an FBI criminal history records check and a trustworthy and reliability determination) that the individual may continue to have unescorted access to the panoramic or underwater irradiator sealed sources. The licensee shall complete implementation of the requirements of Attachments 2 and 3 to this Order by November 18, 2007.

F. 1. The Licensee shall, within twenty (20) days of the date of this Order, submit to the Commission a schedule for completion of each requirement described in Attachments 2 and 3.

The Licensee shall report to the Commission when they have achieved full compliance with the requirements described in Attachments 2 and 3.

G. Notwithstanding any provisions of the Commission's or Agreement State's regulations to the contrary, all measures implemented or actions taken in response to this Order shall be maintained until the Commission determines otherwise.

Licensee response to Conditions B.1, B.2, F.1, and F.2 above shall be submitted to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. In addition, Licensee submittals that contain specific physical protection or security information considered to be Safeguards Information shall be put in a separate enclosure or attachment and, marked as "SAFEGUARDS INFORMATION—MODIFIED HANDLING" and mailed (no electronic transmittals i.e., no e-mail or FAX) to the NRC in accordance with Attachment 2 to the NRC's "Order Imposing Requirements for the Protection of Certain Safeguards Information" (EA-06-241).

The Director, Office of Federal and State Materials and Environmental Management Programs, may, in writing, relax or rescind any of the above conditions upon demonstration by the Licensee of good cause.

IV

In accordance with 10 CFR 2.202, the Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order, and may request a hearing on this Order, within twenty (20) days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to submit an answer or request a hearing must be made in writing to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. The answer may consent to this Order. Unless the answer consents to this Order, the answer shall, in writing and under oath or affirmation, specifically set forth the matters of fact and law on which the Licensee or other person adversely affected relies and the reasons as to why the Order should not have been issued. Any answer or request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, and to the Licensee if the answer or hearing request is by a person other than

the Licensee. Because of possible delays in delivery of mail to United States Government offices, it is requested that answers and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. If a person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309.

If a hearing is requested by the Licensee or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), the Licensee may, in addition to demanding a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section III above shall be final twenty (20) days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section III shall be final when the extension expires if a hearing request has not been received. **AN ANSWER OR A REQUEST FOR HEARING SHALL NOT STAY THE IMMEDIATE EFFECTIVENESS OF THIS ORDER.**

Dated this 22nd day of May 2007.

For the Nuclear Regulatory Commission.

Charles L. Miller,

Director, Office of Federal and State Materials and Environmental Management Programs.

Attachment 1: List of Licensees—Redacted

Attachment 2: Compensatory Measures for Panoramic and Underwater Irradiator Licensees Revision 2

These compensatory measures (CMs) are established to delineate licensee responsibility in response to the current threat environment in the aftermath of the terrorist attacks of September 11,

2001. The following security measures apply to Licensees who, now and in the future, possess greater than 370 TeraBecquerels (TBq) [10,000 Ci] of byproduct material in the form of sealed sources in panoramic irradiators that have dry or wet storage of the sealed sources, or in underwater irradiators in which both the source and the product being irradiated are underwater.

4. Use and store the radioactive material only within a security zone that isolates the material from unauthorized access and facilitates detection if such access occurs.

The security zone is an area, defined by the licensee, that provides for both isolation of radioactive material and access control. The licensee must demonstrate for this area a means to detect any attempt of unauthorized access to licensed material. "Isolation" means to deter persons, materials, or vehicles from entering or leaving through other than established access control points. "Access control" means to allow only approved individuals into the security zone. Thus, isolation and access control aid in the detection of unauthorized access or activities deemed by the licensee to be indicative of, or contributory to, the loss, theft, or release of material. The security zone does not have to be the same as the restricted area or controlled area, as defined in 10 CFR Part 20.

Security zones can be permanent or temporary to meet transitory or intermittent business activities (such as during periods of maintenance, source delivery and source replacement). Different isolation/access control measures may be used for periods during which the security zone is occupied versus unoccupied.

2. Continuously control access to the security zone and limit admittance to those individuals who are approved and require access to perform their duties.

A. For individuals granted access to safeguards information or unescorted access to the security zone, Licensees must provide reasonable assurance that individuals are trustworthy and reliable, and do not constitute an unreasonable risk to the common defense and security. "Access" means that an individual could exercise some physical control over the material or device containing radioactive material.

i. The trustworthiness and reliability of individuals shall be determined based on a background investigation. The background investigation shall address at least the past 3 years and, as a minimum, include fingerprinting and a Federal Bureau of Investigation (FBI) criminal history check, verification of work or education references as

appropriate to the length of employment, and confirmation of employment eligibility.

ii. Fingerprints shall be submitted and reviewed in accordance with the procedures described in Attachment 3 to this Order.

iii. A reviewing official that the licensee nominated and has been approved by the NRC, in accordance with NRC "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Access to Safeguards Information," is the only individual that may make trustworthiness and reliability determinations.

B. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

3. Implement a system (i.e., devices and/or trained individuals) to monitor, detect, assess and respond to unauthorized entries into or activities in the security zone.

A. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

B. Provide enhanced security measures when temporary security zones are established, during periods of maintenance, source delivery and shipment, and source replacement, that will provide additional assurance for enhanced detection and assessment of and response to unauthorized individuals or activities involving the radioactive material. Such security measures shall include, but not be limited to:

i. Advanced notification to the local law enforcement agency (LLEA) for radioactive source exchanges, deliveries, and shipments.

ii. For shipments of sources, establish a positive means of transferring the security responsibility, between the shipper/carrier and the consignee (receiver), for communicating with the LLEA.

C. Provide a positive measure to validate that there has been no unauthorized removal of the radioactive material from the security zone.

D. Maintain continuous communications capability among the various components for intrusion detection and assessment to bring about a timely response.

E. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

4. [This paragraph contains SAFEGUARDS INFORMATION and will not be publicly disclosed.]

Attachment 3: Requirements for Fingerprinting and Criminal History Checks of Individuals When Licensee's Reviewing Official Is Determining Access to Safeguards Information or Unescorted Access to the Panoramic or Underwater Irradiator Sealed Sources

General Requirements

Licensees shall comply with the following requirements of this attachment.

1. Each Licensee subject to the provisions of this attachment shall fingerprint each individual who is seeking or permitted access to safeguards information (SGI) or unescorted access to the panoramic or underwater irradiator sealed sources. The Licensee shall review and use the information received from the Federal Bureau of Investigation (FBI) and ensure that the provisions contained in the subject Order and this attachment are satisfied.

2. The Licensee shall notify each affected individual that the fingerprints will be used to secure a review of his/her criminal history record and inform the individual of the procedures for revising the record or including an explanation in the record, as specified in the "Right to Correct and Complete Information" section of this attachment.

3. Fingerprints for access to SGI or unescorted access need not be taken if an employed individual (e.g., a Licensee employee, contractor, manufacturer, or supplier) is relieved from the fingerprinting requirement by 10 CFR 73.59 for access to SGI or 10 CFR 73.61 for unescorted access, has a favorably decided U.S. Government criminal history check within the last five (5) years, or has an active federal security clearance. Written confirmation from the Agency/employer which granted the federal security clearance or reviewed the criminal history check must be provided for either of the latter two cases. The Licensee must retain this documentation for a period of three (3) years from the date the individual no longer requires access to SGI or unescorted access to radioactive materials associated with the Licensee's activities.

4. All fingerprints obtained by the Licensee pursuant to this Order must be submitted to the Commission for transmission to the FBI.

5. The Licensee shall review the information received from the FBI and consider it, in conjunction with the trustworthy and reliability requirements of this Order, in making a determination whether to grant, or continue to allow, access to SGI or unescorted access to the

panoramic or underwater irradiator sealed sources.

6. The Licensee shall use any information obtained as part of a criminal history records check solely for the purpose of determining an individual's suitability for access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources.

7. The Licensee shall document the basis for its determination whether to grant, or continue to allow, access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources.

Prohibitions

A Licensee shall not base a final determination to deny an individual access to radioactive materials solely on the basis of information received from the FBI involving: an arrest more than one (1) year old for which there is no information of the disposition of the case, or an arrest that resulted in dismissal of the charge or an acquittal.

A Licensee shall not use information received from a criminal history check obtained pursuant to this Order in a manner that would infringe upon the rights of any individual under the First Amendment to the Constitution of the United States, nor shall the Licensee use the information in any way which would discriminate among individuals on the basis of race, religion, national origin, sex, or age.

Procedures for Processing Fingerprint Checks

For the purpose of complying with this Order, Licensees shall, using an appropriate method listed in 10 CFR 73.4, submit to the NRC's Division of Facilities and Security, Mail Stop T-6E46, one completed, legible standard fingerprint card (Form FD-258, ORIMDNRCOOOZ) or, where practicable, other fingerprint records for each individual seeking access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources, to the Director of the Division of Facilities and Security, marked for the attention of the Division's Criminal History Check Section. Copies of these forms may be obtained by writing the Office of Information Services, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by calling (301) 415-5877, or by e-mail to forms@nrc.gov. Practicable alternative formats are set forth in 10 CFR 73.4. The Licensee shall establish procedures to ensure that the quality of the fingerprints taken results in minimizing the rejection rate of fingerprint cards due to illegible or incomplete cards.

The NRC will review submitted fingerprint cards for completeness. Any Form FD-258 fingerprint record containing omissions or evident errors will be returned to the Licensee for corrections. The fee for processing fingerprint checks includes one re-submission if the initial submission is returned by the FBI because the fingerprint impressions cannot be classified. The one free re-submission must have the FBI Transaction Control Number reflected on the re-submission. If additional submissions are necessary, they will be treated as initial submittals and will require a second payment of the processing fee.

Fees for processing fingerprint checks are due upon application. Licensees shall submit payment with the application for processing fingerprints by corporate check, certified check, cashier's check, money order, or electronic payment, made payable to "U.S. NRC." [For guidance on making electronic payments, contact the Facilities Security Branch, Division of Facilities and Security, at (301) 415-7404.] Combined payment for multiple applications is acceptable. The application fee (currently \$27) is the sum of the user fee charged by the FBI for each fingerprint card or other fingerprint record submitted by the NRC on behalf of a Licensee, and an NRC processing fee, which covers administrative costs associated with NRC handling of Licensee fingerprint submissions. The Commission will directly notify Licensees who are subject to this regulation of any fee changes.

The Commission will forward to the submitting Licensee all data received from the FBI as a result of the Licensee's application(s) for criminal history checks, including the FBI fingerprint record.

Right to Correct and Complete Information

Prior to any final adverse determination, the Licensee shall make available to the individual the contents of any criminal records obtained from the FBI for the purpose of assuring correct and complete information. Written confirmation by the individual of receipt of this notification must be maintained by the Licensee for a period of one (1) year from the date of the notification.

If, after reviewing the record, an individual believes that it is incorrect or incomplete in any respect and wishes to change, correct, or update the alleged deficiency, or to explain any matter in the record, the individual may initiate challenge procedures. These procedures

include either direct application by the individual challenging the record to the agency (i.e., law enforcement agency) that contributed the questioned information, or direct challenge as to the accuracy or completeness of any entry on the criminal history record to the Assistant Director, Federal Bureau of Investigation Identification Division, Washington, DC 20537-9700 (as set forth in 28 CFR Part 16.30 through 16.34). In the latter case, the FBI forwards the challenge to the agency that submitted the data and requests that agency to verify or correct the challenged entry. Upon receipt of an official communication directly from the agency that contributed the original information, the FBI Identification Division makes any changes necessary in accordance with the information supplied by that agency. The Licensee must provide at least ten (10) days for an individual to initiate an action challenging the results of an FBI criminal history records check after the record is made available for his/her review. The Licensee may make a final determination on access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources based upon the criminal history record only upon receipt of the FBI's ultimate confirmation or correction of the record. Upon a final adverse determination on access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources, the Licensee shall provide the individual its documented basis for denial. Access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources shall not be granted to an individual during the review process.

Protection of Information

1. Each Licensee who obtains a criminal history record on an individual pursuant to this Order shall establish and maintain a system of files and procedures for protecting the record and the personal information from unauthorized disclosure.

2. The Licensee may not disclose the record or personal information collected and maintained to persons other than the subject individual, his/her representative, or to those who have a need to access the information in performing assigned duties in the process of determining access to SGI or unescorted access to the panoramic or underwater irradiator sealed sources. No individual authorized to have access to the information may re-disseminate the information to any other individual who does not have a need-to-know.

3. The personal information obtained on an individual from a criminal history

record check may be transferred to another Licensee if the Licensee holding the criminal history record receives the individual's written request to re-disseminate the information contained in his/her file, and the gaining Licensee verifies information such as the individual's name, date of birth, social security number, sex, and other applicable physical characteristics for identification purposes.

4. The Licensee shall make criminal history records, obtained under this section, available for examination by an authorized representative of the NRC to determine compliance with the regulations and laws.

5. The Licensee shall retain all fingerprint and criminal history records received from the FBI, or a copy if the individual's file has been transferred, for three (3) years after termination of employment or denial to access SGI or unescorted access to the panoramic or underwater irradiator sealed sources. After the required three (3) year period, these documents shall be destroyed by a method that will prevent reconstruction of the information in whole or in part.

[FR Doc. E7-10695 Filed 6-1-07; 8:45 am]

BILLING CODE 7590-01-P

PEACE CORPS

Proposed Information Collection Requests

AGENCY: Peace Corps.

ACTION: Notice of public use form review request to the Office of Management and Budget (OMB Control Number 0420-0006).

SUMMARY: Pursuant to the Paperwork Reduction Act of 1981 (44 U.S.C., Chapter 35), the Peace Corps has submitted to the Office of Management and Budget a request for reinstatement for approval of information collections, OMB Control Number 0420-0006, the Peace Corps Confidential Reference Form, PC 1532 (Rev. 10/2006). The purpose of this information collection is to assist in processing applicants for volunteer service in determining suitability of applicants. The purpose of this notice is to allow for public comments on whether the proposed collection of information is necessary for the proper performance of the functions of the Peace Corps, including whether their information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collections information, including the validity of the methodology and assumptions used;

ways to enhance the quality, utility and the clarity of the information to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when appropriate, and other forms of information technology. A copy of the information collection may be obtained from Ms. Cathey Bernhard, Office of Volunteer Recruitment and Selection, Peace Corps, 1111 20th Street, NW., Room 6416, Washington, DC 20526. Ms. Bernhard can be contacted by telephone at 202-692-1884 or 800-424-8580 ext. 1884. Comments on the form should also be addressed to the attention of Ms. Bernhard and should be received on or before July 5, 2007.

Information Collection Abstract

Title: Peace Corps Confidential Reference Form (PC 1532).

Need For and Use of This Information: The Peace Corps Confidential Reference Form is used to gather information about individuals who have submitted applications, are basically qualified, and are nominees for volunteer service. The form is an integral part of the screening and selection process conducted by the Office of Volunteer Recruitment and Selection. Such information as past criminal records, severe mental problems, poor interpersonal relationships or emotional immaturity is used by the agency in their consideration of applicants. The purpose of this information collection is to assist in processing applicants for volunteer service in determining suitability of applicants. There is no other means of obtaining the required data. This program also fulfills the first goal of the Peace Corps as required by Congressional legislation.

Respondents: Returned Peace Corps Volunteers.

Respondent's Obligation To Reply: Individuals who voluntarily agree to serve as a reference for Peace Corps applicants.

Burden on the Public:

a. *Annual reporting burden:* 16,500 hours.

b. *Annual recordkeeping burden:* 0 hours.

c. *Estimated average burden per response:* 30 minutes.

d. *Frequency of response:* one time.

e. *Estimated number of likely respondents:* 33,000.

f. *Estimated cost to respondents:* \$0.00.

Dated: May 23, 2007.

Wilbert Bryant,

Associate Director for Management.

PEACE CORPS

Proposed Information Collection Requests

AGENCY: Peace Corps.

ACTION: Notice of public use form review request to the Office of Management and Budget (OMB Control Number 0420-0533).

SUMMARY: Pursuant to the Paperwork Reduction Act of 1981 (44 U.S.C. Chapter 35), the Peace Corps has submitted to the Office of Management and Budget a request for approval of information collections, OMB Control Number 0420-0533, the Peace Corps Crisis Corps Volunteer Application Form. This is a renewal of an active information collection. The purpose of this information collection is necessary in order to identify prospective, interested, and available returned Peace Corps Volunteers who are completing their services for Crisis Corps Volunteer Service. The information is used to determine availability, suitability, and potential Crisis Corps placement applicants.

The purpose of this notice is to allow for public comment on whether the proposed collection of information is necessary for the proper performance of the functions of the Peace Corps, including whether their information will have practical use; the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; ways to enhance the quality, utility and the clarity of the information to be collected; and, ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques, when appropriate, and other forms of information technology. A copy of the information collection may be obtained from Ms. Mary Angelini, Director of the Crisis Corps, Peace Corps, 1111 20th Street, NW., Room 7305, Washington, DC 20526. Ms. Angelini can be contacted by telephone at 202-692-2250. Comments on the form should also be addressed to the attention of Ms. Angelini and should be received on or before July 5, 2007.
