

that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and will not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15

U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D and Department of Homeland Security Management Directive 5100.1, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of the categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. This rule falls under the provisions of paragraph (34)(g) because the rule establishes a safety zone.

Rulemaking on Section 126 Petition From North Carolina To Reduce Interstate Transport of Fine Particulate Matter and Ozone; Federal Implementation Plans To Reduce Interstate Transport of Fine Particulate Matter and Ozone: Notice of Actions Denying Petitions for Reconsideration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Actions Denying Petitions for Reconsideration.

SUMMARY: The EPA is providing notice that it has responded to 4 petitions for reconsideration of a final rule published in the **Federal Register** on April 28, 2006. The rule promulgated Federal implementation plans (FIPs) for the Clean Air Interstate Rule (CAIR) and responded to a petition from North Carolina that was submitted under section 126 of the Clean Air Act (CAIR FIPs-Section 126 Rule). Subsequent to publishing the rule, EPA received 4 petitions for reconsideration from ARRIPA (dated June 26, 2006), Colver

Power Project (dated June 27, 2006), the State of North Carolina (dated June 26, 2006), and Southern Environmental Law Center (on behalf of Southern Environmental Law Center, Sierra Club, and Environment North Carolina) (dated June 27, 2006). The EPA considered the petitions and supporting information along with information contained in the rulemaking docket (Docket No. EPA-OAR-HQ-2004-0076) in reaching a decision on the petitions. EPA Administrator Stephen L. Johnson denied the petitions for reconsideration in separate letters to the petitioners dated February 27, 2007 to ARRIPA and to Colver Power Project and dated May 7, 2007 to Southern Environmental Law Center and to the State of North Carolina. The letters explain EPA's reasons for the denials.

SUPPLEMENTARY INFORMATION:

I. How Can I Get Copies of This Document and Other Related Information?

This **Federal Register** notice, the petitions for reconsideration, and the letters denying the petitions for reconsideration are available in the docket that EPA established for the CAIR FIRs-Section 126 Rule under Docket ID No. EPA-HQ-OAR-2004-0076. The document identification numbers for EPA's response letters are: to ARRIPA, EPA-HQ-OAR-2004-0076-0307; to Colver Power Project, EPA-HQ-OAR-2004-0076-0308; to North Carolina, EPA-HQ-OAR-2004-0076-0305; and to Southern Environmental Law Center, EPA-HQ-OAR-2004-0076-0306.

All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as

copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. This **Federal Register** notice, the petitions for reconsideration, and the letters denying the petitions can also be found on EPA's Web site <http://www.epa.gov/cair>. The CAIR FIPs-Section 126 Rule was published in the **Federal Register** on April 28, 2006 at 71 FR 25328.

II. Judicial Review

Section 307(b)(1) of the Clean Air Act indicates which Federal Courts of Appeals have venue for petitions for review of final actions by EPA. This section provides, in part, that the petitions for review must be filed in the Court of Appeals for the District of Columbia Circuit if (i) the agency action consists of "nationally applicable regulations promulgated, or final action taken, by the Administrator," or (ii) such actions are locally or regionally applicable, if "such action is based on a determination of nationwide scope or effect and if in taking such action the Administrator finds and publishes that such action is based on such a determination."

The EPA has determined that its actions denying the petitions for reconsideration are of nationwide scope and effect for purposes of section 307(d)(1) because the actions directly affect the CAIR FIPs-Section 126 Rule, which previously was found to be of nationwide scope and effect. Thus, any petitions for review of the letters denying the petitions for reconsideration described in this Notice must be filed in the Court of Appeals for the District of Columbia Circuit within 60 days from the date this Notice is published in the **Federal Register**.
