

Business Unit of SCE et al for the Mira Loma Peaker Project.

Filed Date: 06/26/2007.

Accession Number: 20070628-0221.

Comment Date: 5 p.m. Eastern Time on Tuesday, July 17, 2007.

Docket Numbers: ER07-1082-000.

Applicants: Southern California Edison Company.

Description: Southern California Edison submits a Large Generator Interconnection Agreement etc for Wholesale Distribution Service between the Transmission and Distribution Business Unit of SCE et al for the Grapeland Peaker Project.

Filed Date: 06/26/2007.

Accession Number: 20070628-0220.

Comment Date: 5 p.m. Eastern Time on Tuesday, July 17, 2007.

Docket Numbers: ER07-1083-000.

Applicants: Southern California Edison Company.

Description: Southern California Edison submits a Large Generator Interconnection Agreement etc for Wholesale Distribution Service between the Transmission and Distribution Business Unit of SCE et al for the Center Peaker Project.

Filed Date: 06/26/2007.

Accession Number: 20070628-0219.

Comment Date: 5 p.m. Eastern Time on Tuesday, July 17, 2007.

Docket Numbers: ER07-1084-000.

Applicants: Southern California Edison Company.

Description: Southern California Edison submits a Large Generator Interconnection Agreement etc for Wholesale Distribution Service between the Transmission and Distribution Business Unit of SCE et al for the Barre Peaker Project.

Filed Date: 06/26/2007.

Accession Number: 20070628-0218.

Comment Date: 5 p.m. Eastern Time on Tuesday, July 17, 2007.

Docket Numbers: ER07-1085-000.

Applicants: Niagara Mohawk Power Corporation.

Description: Niagara Mohawk Power Corp dba National Grid submits an Amended and Restated Power Sales Agreement with Fulton Cogeneration Associates, LP, designated as Service Agreement 1150.

Filed Date: 06/26/2007.

Accession Number: 20070628-0082.

Comment Date: 5 p.m. Eastern Time on Tuesday, July 17, 2007.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It

is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

[Project No. 11588-027-AK]

Alaska Power and Telephone Company; Notice of Availability of Environmental Assessment

June 28, 2007.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by Alaska Power and Telephone Company (licensee) on January 26, 2007, and supplemented on March 6 and April 5, 2007, requesting Commission approval for an Amendment of License to Modify Project Design at the Kasidaya Hydroelectric Project. The project is located on Kasidaya Creek at Taiya Inlet, 3 miles south of the City of Skagway, Alaska. The project occupies lands within the Tongass National Forest, administered by the U.S. Forest Service.

The licensee has requested that in lieu of passing the penstock through a tunnel to cross Kasidaya Creek and gain access to the diversion structure, they would like to have the penstock cross over Kasidaya Creek with a modular steel bridge. The penstock would be buried adjacent to the access road, except for crossing the creek, on a small bridge adjacent to the aluminum block culvert. In addition to being significantly less expensive than the tunnel, the bridge arrangement would also provide more convenient access to the diversion site for construction and operation of the project.

The Environmental Assessment (EA), which is attached to the order approving order amending license and revising annual charges, evaluates the environmental effects of the relocation and redesign of project facilities. While these changes to project facilities will impact areas not specifically evaluated in previous EA's, the environmental effects are expected to be similar.

A copy of the EA is attached to a Commission order titled "Approving Order Amending License and Revising Annual Charges," issued June 27, 2007 and is available for review at the Commission or may be viewed on the Commission's web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access documents. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-

free at 1-866-208-3676, or for TTY, (202) 502-8659.

[Docket Nos. CP06-470-000, Docket Nos. CP06-471-000, Docket Nos. CP06-472-000, Docket Nos. CP06-473-000, Docket Nos. CP06-474-000]

Southern LNG, Inc, Elba Express Company, LLC, Southern Natural Gas Company; Notice Accepting in Part and Rejecting in Part Intervenor's Comments to the Draft Environmental Impact Statement for the Proposed Elba III Project

June 28, 2007.

On May 25, 2007, Landowners for Economic and Environmental Protection (Landowners) submitted Intervenor's Comments to the Draft Environmental Impact Statement for the Proposed Elba III Project in the above referenced dockets.

After receipt of the filing, the staff of the Federal Energy Regulatory Commission (FERC or Commission) has determined that the text of Comments, together with Exhibits A and B, comply with the Commission's filing requirements and are acceptable submittals which will be considered in the Final Environmental Impact Statement. However, Exhibit C (five DVDs containing digital data) is hereby rejected for numerous failures to comply with the Commission's Submission Guidelines for CDs, DVDs, and Other Electronic Media (Guidelines),¹ as outlined below:

- The submission does not include a cover letter containing information specified by the Guidelines;
- The data files on the DVDs include files that exceed the 50 MB limit per file, with many files in the range of 145-456 MB;
- The folder mapping on the DVDs does not follow the Files and Folders Guidelines correlating the electronic data to the logical organization of the document, and there is no documentation outlining how the data was split over the five DVDs and the content on each;

¹ The Guidelines appear online at: <http://www.ferc.gov/help/submission-guide.asp>. The Guidelines specifically outline the areas in which Exhibit C was non-compliant.

There appears to be duplication of Exhibit A in three places and duplicate copies of other electronic files on the DVDs;

- Many file names are not descriptive, and the cover letter is not in the root directory;
- There are at least 10 unacceptable file types submitted which prohibit both FERC staff and the public from viewing them;
- Specialized software was used to compile the data and distribute the contents over five DVDs, which does not allow FERC staff or the public access to the electronic media without administrative rights;
- The filing does not include a detailed description of the content of the filing and instructions for the public on how to obtain the resources to view it;
- The external labels on the DVDs do not identify the filer, docket number, or security classification of the data;
- The consultant responsible for the compilation of the DVDs did not comply with FERC staff's request to provide a paper copy of the map document (.mxd file) for FERC staff use.

Accordingly, Exhibit C of Landowners' May 25, 2007 submission to the Commission is hereby rejected without prejudice to Landowners' resubmitting this portion of its filing in accordance with the Guidelines.

Kimberly D. Bose,
Secretary.

[Project No. 12805-000]

Pacific Gas and Electric Company; Notice of Application Accepted for Filing and Soliciting Motions To Intervene, Protests, and Comments

June 28, 2007.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Type of Application:* Preliminary Permit.
- b. *Project No.:* 12805-000.
- c. *Date filed:* June 11, 2007.
- d. *Applicant:* Pacific Gas and Electric Company.
- e. *Name of Project:* Pit 3 Dam Streamflow Incremental Generation Project.
- f. *Location:* The project would be located in the Pit River upstream of

Shasta Lake, near the towns of Burney, Fall River Mills, and McArthur, in Shasta County, California.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)—825(r).

h. *Applicant Contact:* Mr. Alan Soneda, Pacific Gas and Electric Company, 245 Market Street, MS N11E, P.O. Box 770000, San Francisco, CA 94177-0001, phone (415)-973-4054.

i. *FERC Contact:* Sonali Dohale, (212) 273-5902.

j. *Deadline for filing comments, protests, and motions to intervene:* 60 days from the issuance date of this notice.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Project:* The proposed project would consist of one powerhouse with a turbine and generator to be constructed on the right abutment at the downstream side of the existing Pit 3 Dam. The proposed Project will be run-of-river; the minimum required instream flow below Pit 3 Dam will be passed through the proposed powerhouse without change in volume or timing. The project is estimated to have an annual generation of 18.3 gigawatt-hours per-year.

l. *Locations of Applications:* A copy of the application is available for inspection and reproduction at the Commission in the Public Reference Room, located at 888 First Street NE, Room 2A, Washington DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call toll-free 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov. For TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item h above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Competing Preliminary Permit:* Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice
