

20. Most unlicensed transmitters can be approved by either the Commission's Laboratory or a designated Telecommunication Certification Body (TCB). TCBs are private sector organizations that are permitted to issue equipment certifications in the same manner as the Commission. TCBs would not be permitted to certify equipment subject to the etiquette requirement until the Commission has experience with them and can properly advise TCBs on how to apply the applicable rules.

E. Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

21. The RFA requires an agency to describe any significant, specifically small business, alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): "the establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; the clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities; the use of performance, rather than design standards; and an exemption from coverage of the rule, or any part thereof, for small entities."¹⁷

22. If the rules proposed in this notice are adopted, the Commission believes they might have a significant economic impact on a substantial number of small entities. For an entity that chooses to manufacture or import digitally modulated spread spectrum transmitters, the rules would impose costs for compliance with equipment technical requirements, such as modifying or redesigning equipment that does not comply with any new etiquette requirement. However, the burdens for complying with the proposed rules would be the same for both large and small entities. Further, the proposals in the *NPRM* are ultimately beneficial for both large and small entities. The Commission cannot find electrical engineering alternatives that would achieve our goals while treating small entities differently. Nonetheless, it solicits comment on any alternatives commenters may wish to suggest for the purpose of facilitating the Commission's intention to minimize the compliance burden on smaller entities.

F. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rule

None.

Ordering Clauses

23. The Further Notice of Proposed Rule Making is hereby adopted. This action is taken pursuant to the authority contained in sections 4(i), 301, 302, 303(e), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 301, 302, 303(e), 303(f), and 303(r).

24. The Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of this Notice of Proposed Rule Making, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

Passenger Equipment Safety Standards; Front-End Strength of Cab Cars and Multiple-Unit Locomotives

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: FRA is proposing to further the safety of passenger train occupants by amending existing regulations to enhance structural strength requirements for the front end of cab cars and multiple-unit locomotives. These enhancements would include the addition of deformation and energy absorption requirements specified in revised American Public Transportation Association (APTA) standards for front-end collision posts and corner posts for this equipment. FRA is also proposing to make miscellaneous clarifying amendments to current regulations for the structural strength of passenger equipment.

DATES: (1) Written comments must be received by October 1, 2007. Comments received after that date will be considered to the extent possible without incurring additional expense or delay.

(2) FRA anticipates being able to resolve this rulemaking without a public, oral hearing. However, if FRA receives a specific request for a public, oral hearing prior to August 31, 2007, one will be scheduled, and FRA will publish a supplemental notice in the **Federal Register** to inform interested parties of the date, time, and location of any such hearing.
