NUCLEAR REGULATORY COMMISSION

Privacy Act of 1974, as Amended; New Routine Use

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of New Routine Use.

SUMMARY: The Nuclear Regulatory Commission (NRC) proposes to adopt a new routine use that will apply to all of its systems of records allowing disclosure to appropriate persons and entities for purposes of response and remedial efforts in the event that there has been a breach of data contained in the systems. This routine use will facilitate an effective response to a confirmed or suspected breach by permitting disclosure to those individuals affected by the breach, as well as to others who are in a position to assist in the NRC's response efforts, either by assisting in notification to affected individuals or by otherwise playing a role in preventing,

minimizing, or remedying harm from the breach.

DATES: This revision will become effective without further notice on September 12, 2007 unless comments received on or before that date cause a contrary decision. If changes are made based on NRC's review of comments received, a new final notice will be published. We note that the text of the proposed routine use is taken from the routine use that has already been published in final form by the Department of Justice after public comment at 72 FR 3410 (January 25, 2007).

ADDRESSES: Mail comments to the Chief, Rulemaking, Directives, and Editing Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Accordingly, the proposed new routine will read:

* * * * *

7. A record from this system of records may be disclosed as a routine use to appropriate agencies, entities, and persons when (1) the NRC suspects or has confirmed that the security or

confidentiality of information in the system of records has been compromised; (2) the NRC has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the NRC or another agency or entity) that rely upon the compromised information; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the NRC's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.
