#### **Ecological Restoration Plan, Final Environmental Impact Statement, Bandelier National Monument, New Mexico**

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of Availability of the Final Environmental Impact Statement for the Ecological Restoration Plan, Bandelier National Monument.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of a

Final Environmental Impact Statement for the Ecological Restoration Plan for Bandelier National Monument, New Mexico. Alternative B was selected as the park's preferred alternative; it maximizes work efficiency and minimizes resource impacts by implementing restoration treatments in the most systematic and timely fashion possible given available funding. The purpose of the Ecological Restoration Plan is to re-establish healthy, sustainable vegetative conditions within the pinon-juniper woodland and to mitigate soil erosion that threatens the cultural resources for which Bandelier National Monument was established and specifically set aside to preserve.

**DATES:** The National Park Service will execute a Record of Decision (ROD) no sooner than 30 days following publication by the Environmental Protection Agency of the Notice of Availability of the Final Environmental Impact Statement.

**ADDRESSES:** Information will be available for public review and comment online at <http://parkplanning.nps.gov> and in the office of the Superintendent, Darlene Koontz, Bandelier National Monument, 15 Entrance Road, Los Alamos, New Mexico 87544, 505-672-3861, extension 502.

#### **Jackson Hole Airport Use Agreement Extension, Environmental Impact Statement, Grand Teton National Park, Wyoming**

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of Intent to prepare an Environmental Impact Statement for the Jackson Hole Airport Use Agreement Extension, Grand Teton National Park.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service is preparing an Environmental Impact Statement (EIS) for the Jackson

Hole Airport Use Agreement Extension, Grand Teton National Park, Wyoming. This effort addresses a request from the Jackson Hole Airport Board to amend the use agreement between the Department of the Interior and the Airport Board in order to ensure that the airport remains eligible for funding through the Federal Aviation Administration (FAA). Alternatives to be considered include *Alternative 1: No Action*—The airport would continue operations under the existing use agreement which currently has an expiration date of April 27, 2033; *Alternative 2: Extend Agreement*—Jackson Hole Airport Board proposal to extend the use agreement for an additional two 10-year terms, bringing the expiration date to April 27, 2053; and *Alternative 3: Update and Extend Agreement*—Extend the use agreement for an additional two 10-year terms with minor modifications as mutually agreed to by the NPS and the Airport Board.

The Jackson Hole Airport is located on 533 acres of land within Grand Teton National Park. The airport operates under the terms and conditions of a 1983 use agreement between the Department of the Interior and the Jackson Hole Airport Board. The 1983 agreement was for a primary term of 30 years, with options for two 10-year extensions, both of which have been exercised. The agreement also includes a provision that further extensions, amendments, or modifications could be negotiated by the parties on mutually satisfactory terms, and that the parties agree that upon expiration of the agreement, a mutually satisfactory extension could be negotiated.

The FAA requires that airports have use agreements of 20 years or more in order to remain eligible for Airport Improvement Program funds. An extension of the existing use agreement is needed to provide assurance that the airport will remain eligible for funding beyond the year 2013.

In November 2006, a public scoping notice soliciting public comments was circulated describing the purpose and need for the project. Based on comments received and subsequent data gathered, the NPS has determined the preparation of an EIS is warranted. Preliminary EIS impact topics include: Natural soundscape, air quality, water quality, wildlife/T&E species, visual quality/dark skies, public health and safety, visitor use & experience, transportation planning, socioeconomic, park & airport operations.

**DATES:** The National Park Service will conduct further scoping for the draft alternatives and EIS for a period of 30-

days beyond publication of this Notice of Intent. Previous scoping comments submitted will be considered and need not be resubmitted.

**ADDRESSES:** You may mail comments to: Jackson Hole Airport Use Agreement Extension, Superintendent's Office, Grand Teton National Park, PO Drawer 170, Moose, WY 83012. Electronic comments can be made online at <http://parkplanning.nps.gov/grte>.

## DEPARTMENT OF JUSTICE

### Notice of Lodging of Consent Order Under the Clean Water Act

Notice is hereby given that on August 2, 2007, a proposed Consent Order in *United States v. Country Acres Farm, Inc.*, Civil Action No. 07-07-B-W was lodged with the United States District Court for the District of Maine.

In this action the United States sought civil penalties and injunctive relief relating to alleged violations of the Clean Water Act, 33 U.S.C. 1251, *et seq.*, arising out of Country Acres Farm's

operation of a concentrated animal feeding operation, located in Dixmont, Maine. Country Acres Farm's dairy operations generated significant amounts of process-generated waste water which was alleged in the Complaint to have discharged to waters of the United States. The Consent Order requires the implementation of remedial work to clean up manure storage lagoons and other activities, which will minimize or eliminate the risk of additional discharges at the Country Acres Farm Site, by memorializing Defendant's commitment to effect the remediation. The Consent Order provides a mechanism through which EPA may evaluate the performance of Defendant's independent contractor and retains the Court's exercise of jurisdiction over issues relating to Defendant's performance of the remediation and (with EPA's approval of completion of the remediation) purges Defendant and its president of an Order for Contempt, entered by the Court on July 24, 2007. The Consent Order does not resolve the United States' claims for final injunctive relief or for payment of a civil penalty.

In light of the importance of concluding the remedial work as soon as possible, the Department of Justice will receive for a period of fourteen (14) days from the date of this publication comments relating to the Consent Order. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov) or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Country Acres Farm, Inc.*, D.J. Ref. 90-5-1-1-09068.

The Consent Order may be examined at the Office of the United States Attorney, District of Maine, 100 Middle Street Plaza, East Tower Sixth Floor, and at U.S. EPA Region 1, One Congress Street-SEL, Boston, MA 02114. During the public comment period, the Consent Order may also be examined on the following Department of Justice Web site:
