

collection. The comments that are submitted will be summarized and included in the NARA request for Office of Management and Budget (OMB) approval. All comments will become a matter of public record. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Presidential Libraries Museum Visitor Survey.

OMB number: 3095-00XX.

Agency form number: N/A.

Type of review: Regular.

Affected public: Individuals who visit the museums at the Presidential libraries.

Estimated number of respondents: 75,000.

Estimated time per response: 15 minutes.

Frequency of response: On occasion (when an individual visits a Presidential Library or Museum.)

Estimated total annual burden hours: 18,750 hours.

Abstract: The survey will be comprised of a set of questions designed to allow for a statistical analysis that will ultimately provide actionable information to NARA. The survey includes questions that measure the visitor's satisfaction in general and with specific aspects of their visit. These questions serve as dependent variables for analytical purposes. Other questions provide attitudinal, behavioral, and demographic data that are used to help understand variation in the satisfaction variables. Using statistical analyses, Harris Interactive will determine the factors that drive the visitor's perceptions of quality and satisfaction with the Library they visited. Additionally, natural groupings of visitors defined by similarity based on these attitudinal, behavioral, and demographic variables can be developed and targeted for outreach purposes. The information collected through this effort will inform program activity, operation, and oversight, and will benefit Library and NARA staff and management in making critical decisions about resource allocation, museum operation and program direction.

Dated: August 2, 2007.

Martha Morphy,

Assistant Archivist for Information Services.

BILLING CODE 7515-01-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before September 10, 2007 (Note that the new time period for requesting copies has changed from 45 to 30 days after publication). Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: requestschedule@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Laurence Brewer, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1539. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending (Note that the new time period for requesting copies has changed from 45 to 30 days after publication):

1. Department of Agriculture, Cooperative State Research, Education, and Extension Service (N1-540-07-3, 18 items, 18 temporary items). Records of the Office of Extramural Program Policy and Oversight, including audit, investigation, review, and reporting records; rulemaking records, opinions, and commentaries; policies, procedures, terms and conditions, memoranda of understanding, agreements, and requests for proposals relating to the awarding of grants; internal administrative policies and procedures; and working files. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

2. Department of Agriculture, Food Safety and Inspection Service (N1-462-05-7, 9 items, 9 temporary items). Records of the Environmental, Health and Safety Branch relating to emergency planning records. Included are emergency occupant plans, lockout and tagout procedures, health hazard reports, air contaminants monitoring exposure reports, industrial hygiene surveys, hearing conservation and hazard communication programs records, log reports on unsafe and unhealthful working conditions, and safety and workplace inspections.

3. Department of State, Bureau of Overseas Buildings Operations (N1-59-07-7, 1 item, 1 temporary item). Background information files used to analyze and monitor operations and prepare final internal review reports.

4. Department of State, Office of Civil Rights (N1-59-07-10, 3 items, 3 temporary items). Photographs, audio tapes, and video tapes relating to notables, and fragmentary textual files.

5. Environmental Protection Agency (N1-412-06-12, 2 items, 2 temporary items). This schedule authorizes the agency to apply the existing disposition instructions to records series regardless of the recordkeeping medium. Included are site-specific grants and other program support agreements to which the agency is a party and which support the Superfund program. Paper recordkeeping copies of these files were previously approved for disposal.

6. Environmental Protection Agency (N1-412-06-15, 5 items, 5 temporary items). This schedule authorizes the agency to apply the existing disposition instructions to records series regardless of the recordkeeping medium. Included are records created by laboratories relating to chemical analysis services performed to support Superfund

remedial and removal site-specific activities. Paper recordkeeping copies of these files were previously approved for disposal.

7. Environmental Protection Agency (N1-412-06-17, 3 items, 3 temporary items). This schedule authorizes the agency to apply the existing disposition instructions to records series regardless of the recordkeeping medium. Included are Superfund site-specific contract management files, including correspondence and related records pertaining to requests for proposals, procurement award and administration, receipt, inspection and payment of contracts, and other contract matters. Paper recordkeeping copies of these files were previously approved for disposal.

8. Environmental Protection Agency (N1-412-06-18, 1 item, 1 temporary item). This schedule authorizes the agency to apply the existing disposition instructions to records series regardless of the recordkeeping medium. Included are site-specific records relating to activities undertaken to secure response costs from responsible parties at Superfund remedial and removal sites and oil spills. Records include compilations of documentation that describe technical aspects of the response action and cost accounting information necessary to document the costs incurred to implement the response action. Paper recordkeeping copies of these files were previously approved for disposal.

9. Environmental Protection Agency (N1-412-06-19, 2 items, 1 temporary item). This schedule authorizes the agency to apply the existing disposition instructions to records series regardless of the recordkeeping medium. Included are Superfund site-specific case files, covering such actions as injunctive relief, natural resource damage actions, remedial investigation/feasibility study special notices, administrative and judicial cost recovery settlements, administrative orders, and other matters. Paper recordkeeping copies of these files were previously approved for disposal. Proposed for permanent retention are landmark cases, including cases resulting in a legal precedent that establishes or affirms agency policy with respect to environmental actions of national importance, for which paper recordkeeping copies previously were approved as permanent.

10. Environmental Protection Agency (N1-412-07-25, 4 items, 2 temporary items). This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium. Included are Superfund and Brownfields site

assessment files, comprising site-specific records, including site discovery, preliminary assessment, site investigation and hazard ranking system package documents and other records, related to sites investigated for listing on the National Priorities List and the Brownfields program. Proposed for permanent retention are files for sites placed on the National Priorities List and for sites warranting a removal action, for which paper recordkeeping copies previously were approved as permanent.

11. National Archives and Records Administration, Government-wide (N1-GRS-07-1, 3 items, 3 temporary items). Addition to the General Records Schedules covering records relating to the planning, implementation, operation, audit or monitoring, reorganization or termination, and transaction interoperability of a public key infrastructure (PKI) system.

12. National Archives and Records Administration, Government-wide (N1-GRS-07-4, 11 items, 7 temporary items). Revision to General Records Schedule 20, Items 2, 3, and 11. The schedule revises Item 2a to provide disposal authority for non-electronic documents that are used to create electronic records, and also records not created solely for that purpose, such as reports, correspondence, memorandums, and other records that are scanned into an electronic recordkeeping system. Proposed revised Item 3 provides coverage for electronic records that replace temporary hard copy records covered by previously approved schedules that do not explicitly *exclude* electronic records. Revised GRS 20, Item 11, provides disposition instruction for documentation associated with electronic records. Proposed for permanent retention are hardcopy documents that NARA has specifically designated as permanent records that must be transferred to NARA in hard copy format, even if records have been copies/converted to an electronic format; hardcopy records previously approved as permanent that are converted to electronic records where the electronic records do not meet NARA's transfer standards for permanent electronic records in effect at the time of conversion; electronic records that replace hard copy records approved as permanent in a previously approved schedule; and documentation relating to electronic records that are scheduled for permanent retention in the GRS or in a NARA-approved agency schedule.

13. Social Security Administration, Office of Disability and Income Security

Programs (N1-47-07-1, 1 item, 1 temporary item). Eligibility records accumulated after a determination for Medicare benefits has been made. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

Dated: August 1, 2007.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-3098-MLA; ASLBP No.: 07-856-02-MLA-BD01]

Atomic Safety and Licensing Board; In the Matter of Shaw Areva MOX Services (Mixed Oxide Fuel Fabrication Facility); Notice of Oral Argument and of Opportunity To Make Limited Appearance Statements

August 3, 2007.

Before Administrative Judges: Michael C. Farrar, Chairman, Nicholas G. Trikouros, Lawrence G. McDade.

This proceeding involves the September 2006 application of Shaw AREVA MOX Services (MOX Services, or Applicant) for a license to possess and use byproduct, source, and special nuclear materials at the Mixed Oxide Fuel Fabrication Facility (MFFF) at the Department of Energy's Savannah River Site, which lies south of Aiken, South Carolina, and extends to the Georgia border. This Atomic Safety and Licensing Board hereby gives NOTICE that it will, on Wednesday, August 22, 2007, in Augusta, Georgia, be hearing oral argument from the formal participants in the proceeding regarding the petition to intervene that has been submitted by three organizations. Information about that oral argument appears in Section A below.

In addition, the Board gives notice that, in accordance with 10 CFR 2.315(a), it will entertain oral "limited appearance" statements from members of the public in North Augusta, South Carolina, on the evening of Tuesday, August 21, 2007. Information about these statements appears in Section B below.

This matter began on March 15, 2007, when the Commission published a notice of acceptance for docketing of the MOX Services license application and a notice of opportunity to request a hearing on the application. 72 FR 12,204 (Mar. 15, 2007). Thereafter, a "Petition for Intervention and Request for

Hearing" (hereinafter Petition) was timely filed on May 14, 2007, by a group of three organizations (collectively, Petitioners): The Blue Ridge Environmental Defense League (BREDL), Nuclear Watch South (NWS),¹ and the Nuclear Information Service (NIRS).

On June 5, 2007, this Atomic Safety and Licensing Board was established to conduct this adjudication.² As part of that process, this Board will now hear oral argument on the standing of the Petitioners to intervene in this proceeding and on the admissibility of the five contentions they submitted as part of the petition to intervene.

A. Nature, Timing, and Location of Oral Argument

The oral argument is currently scheduled to cover two categories of issues: Standing and contention admissibility. The Petitioners have claimed representational standing on behalf of their members who reside within 50 miles of the proposed facility, a claim that is disputed by the Applicant and by the NRC Staff. The Petitioners have also submitted five contentions, which they list in summary as follows:

(1) Whether MOX Services' License Application and/or EIS meet the relevant requirements in the National Environmental Policy Act and/or the Clean Air Act because of failures to address critical aspects regarding limits on emissions of hazardous air pollutants necessary for the protection of public health and safety;

(2) Whether MOX Services License Application meets the relevant requirements of the Atomic Energy Act because of its failure to prepare and submit an emergency plan to the NRC for potential radioactive releases to the public;

(3) Whether the Final Environmental Impact Statement on the construction and operation of a plutonium fuel factory is adequate to satisfy the requirements of NEPA and NRC implementing regulations because it fails to address new and significant information showing that neither MOX Services nor the U.S. Department of Energy ("DOE") has any concrete plans for the Waste Solidification Building ("WSB") that was proposed in the EIS and, as a result, high-alpha liquid waste from the proposed facility may have to be stored onsite posing hazards which have not been addressed by the NRC in the EIS;

(4) Whether the License Application for the proposed plutonium processing facility is inadequate because it does not address safety

and public health risks posed by indefinite storage of liquid high-alpha waste at the site or contain measures for the safe storage of that waste; and

(5) Whether the Final Environmental Impact Statement for the proposed plutonium processing facility meets the relevant requirements of NEPA because it does not evaluate the environmental impacts of a terrorist attack on the proposed factory.

Petition at 5-6. The Board will hear argument from counsel for the Applicant and for the NRC Staff and from *pro se* representatives of the Petitioners regarding the Petitioners' standing claim and the admissibility of these contentions under 10 CFR 2.309(f)(1).

The specific date, time, and location of the oral argument is as follows:

Dates: Wednesday, August 22, 2007.

Location: Courtroom # 2 (Second Floor), Augusta Federal Courthouse, 600 James Brown Blvd., Augusta, Georgia 30901.

Time: 9 a.m. to 11:30 a.m. (EDT).

Members of the public are welcome to attend the oral argument as spectators (this session is a formal adjudicatory proceeding open to public observation but not to public participation those who wish to participate in other aspects are invited to offer limited appearance statements as provided in Section B, below.) Conduct of members of the public at NRC adjudicatory proceedings is governed by 66 FR 31,719 (June 12, 2001), an excerpt from which follows this notice. In addition, normal federal courthouse security procedures will be followed.

Attendees are strongly advised to arrive sufficiently early to allow time to pass through a security screening checkpoint. Further, in the interest of permitting prompt access to the hearing room, attendees are requested to refrain from bringing any unnecessary hand-carried items. (Items such as packages, briefcases, and backpacks may need to be examined individually, and items that could readily be used as weapons will not be permitted in the hearing room.) There will be no facilities available for storing any items outside the hearing room, and attendees with items requiring inspection may be delayed in obtaining entry.

B. Oral Limited Appearance Statement Session

1. Date, Time, and Location

The Board will conduct a session to provide members of the public with an opportunity to make oral limited appearance statements on the following date at the specified location and time:

Dates: Tuesday, August 21, 2007.

¹ Nuclear Watch South was previously known as Georgians Against Nuclear Energy (GANE) and participated in the prior proceeding related to this facility under that name.

² 72 FR 32,139 (June 11, 2007). The Board was subsequently reconstituted, pursuant to 10 CFR 2.313(c), due to the unavailability of one of the judges. 72 FR 40,344 (July 24, 2007).
