Routine Uses of Records Maintained in the System, Including Categories of Users and the Purposes of Such Uses

Records in the above listed systems of records may be disclosed as follows:

To appropriate agencies, entities, and persons when (1) It is suspected or confirmed that the security or confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the compromised information; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Department's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

Dated: August 6, 2007.

Brenda Dolan,

Departmental Freedom of Information and Privacy Act Officer.

National Institute of Standards and Technology

Public Safety Voice Over Internet Protocol (VoIP) Roundtable for Organizations Interested in Utilization of VoIP for Communication Between Public Safety Personnel

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of public workshop.

SUMMARY: The Office of Law Enforcement Standards (OLES), in

cooperation with the Department of Homeland Security's Office of Interoperability and Compatibility (DHS/OIC) and representatives of the public safety community, will hold a public roundtable on September 11–12, 2007, at the Institute for Telecommunication Sciences (ITS) in Boulder, CO. The purpose of the roundtable is to discuss the development of an implementation profile for VoIP between radio system bridging solutions. The results of this and subsequent roundtable discussions will be used in the development of specific implementation profiles for VoIP usage in public-safety owned systems.

There is no charge for the roundtable; however, because of meeting room restrictions, advance registration is mandatory and limited to three representatives from any one organization. There will be no on-site, same-day registration. The registration deadline is September 4, 2007. Please note registration and admittance instructions and other additional information under the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: The workshop will be held on September 11–12, 2007, from 8:30 a.m. until 5 p.m. MT.

ADDRESSES: The roundtable will be held in the Radio Building (Building 1), Room 1103/1105, 325 Broadway, Boulder, CO 80305.

FOR FURTHER INFORMATION CONTACT: Dereck Orr, (303) 497–5342, e-mail: dereck.orr@nist.gov. The mailing address is 325 Broadway, Building 1, Wing 2, Room 2209, Boulder, CO 80305. Information regarding OLES can be viewed at <http://www.eel.nist.gov/oles/>. Information regarding DHS/OIC can be viewed at <http://www.safecomprogram.gov>. Information regarding ITS can be viewed at <http://www.its.blrdoc.gov>.

SUPPLEMENTARY INFORMATION: In response to a request from the U.S. Department of Homeland Security (DHS), Science and Technology Directorate (S&T), Command, Control and Interoperability Division (C2I), Office of Interoperability and Compatibility (OIC), the NIST Office of Law Enforcement Standards (OLES) is developing protocol implementation profiles for VoIP communications between public safety personnel.

The request from OIC germinated from practitioner-raised issues related to VoIP-enabled solutions being marketed to the public safety community as an “interoperability solution,” yet these solutions will not interoperate with VoIP-enabled solutions from other

manufacturers making the same claim. The proper way to address this situation is to develop a protocol implementation profile (or set of profiles) that contains the minimum standards, parameters and values necessary to ensure that solutions developed by independent organizations will interoperate with each other. This roundtable discussion is intended to lead to the development of a protocol implementation profile for VoIP-enabled radio system bridging solutions.

Anyone wishing to attend this meeting must register by close of business September 4, 2007, in order to attend. Please submit your name, time of arrival, e-mail address and phone number to Ms. Kathy Mayeda and she will provide you with logistics information for the meeting. Ms. Mayeda's e-mail address is kmayeda@its.blrdoc.gov and her phone number is (303) 497–5890.

All attendees are required to submit their name, time of arrival, e-mail address and phone number to Ms. Mayeda. Non-U.S. citizens must also submit their country of citizenship, title, employer/sponsor and address.

Dated: August 6, 2007.

James M. Turner,
Deputy Director.

National Oceanic and Atmospheric Administration

Federal Consistency Appeal by Donald Williams

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (Commerce).

ACTION: Notice of appeal and request for comments.

SUMMARY: This announcement provides notice that Donald Williams has filed an administrative appeal with the Department of Commerce asking that the Secretary override the State of New York's objection to his proposed erosion-control project along the shoreline of Lake Ontario in Niagara County, New York.

DATES: Public and federal agency comments on the appeal are due within 30 days of the publication of this Notice.

ADDRESSES: Comments should be sent to Suzanne Bass, Attorney-Advisor, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910.

Materials from the appeal record will be available at the NOAA Office of the General Counsel for Ocean Services.

FOR FURTHER INFORMATION CONTACT: Suzanne Bass, Attorney-Advisor, NOAA Office of the General Counsel, 301–713–7387.

SUPPLEMENTARY INFORMATION:

I. Notice of Appeal

Donald Williams filed a notice of appeal with the Secretary of Commerce pursuant to the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.*, and implementing regulations found at 15 CFR Part 930, Subpart H. Mr. Williams appeals an objection, filed by the State of New York, to a consistency determination prepared by Mr. Williams related to his proposed erosion project (stone rip-rap) along the shoreline of Lake Ontario, in Niagara County, New York.

In the federal consistency appeal process, the Secretary may override the State's objection on grounds that the project is consistent with the objectives or purposes of the CZMA or necessary in the interest of national security. To make the determination that the proposed activity is “consistent with objective or purposes” of the CZMA, the Secretary must find that: (1) The proposed activity furthers the national interest as articulated in sections 302 or 303 of the CZMA, in a significant or substantial manner; (2) the adverse effects of the proposed activity do not outweigh its contribution to the national interest, when those effects are considered separately or cumulatively; and (3) no reasonable alternative is available that would permit the activity to be conducted in a manner consistent with enforceable policies of the state's coastal management program. 15 CFR 930.121 (2005), *as amended*, 71 FR 787, 831 (Jan. 5, 2006). To make the determination that the proposed activity is “necessary in the interest of national security,” the Secretary must find that a national defense or other national security interest would be significantly impaired were the project not allowed to go forward. 15 CFR 930.121.

II. Public and Federal Agency Comments

Written comments are invited on any of the issues the Secretary must consider in deciding this appeal. Comments must be received within 30 days of the publication of this notice, and may be submitted to Suzanne Bass, Attorney-Advisor, NOAA Office of the General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, U.S. Department of
