**SUPPLEMENTARY INFORMATION:** The HIHWNMS Advisory Council was established in March 1996 to assure continued public participation in the management of the Sanctuary. Since its establishment, the Council has played a vital role in the decisions affecting the Sanctuary surrounding the main Hawaiian Islands.

The Council's twenty-four voting members represent a variety of local user groups, as well as the general public, plus ten local, state and federal governmental jurisdictions.

Council is supported by three committees: a Research Committee chaired by the Research Representative, an Education Committee chaired by the Education Representative, and a Conservation Committee chaired by the Conservation Representative, each respectively dealing with matters concerning research, education and resource protection.

The Council represents the coordination link between the Sanctuary and the state and federal management agencies, user groups, researchers, educators, policy makers, and other various groups that help to focus efforts and attention on the humpback whale and its habitat around the main Hawaiian Islands.

The Council functions in an advisory capacity to the Sanctuary Manager and is instrumental in helping to develop policies and program goals, and to identify education, outreach, research, long-term monitoring, resource protection and revenue enhancement priorities. The Council works in concert with the Sanctuary Manager by keeping him or her informed about issues of concern throughout the Sanctuary, offering recommendations on specific issues, and aiding the Manager in achieving the goals of the Sanctuary program within the context of Hawai'i's marine programs and policies.

**SUPPLEMENTARY INFORMATION:** On March 7, 2007, notice was published in the **Federal Register** (72 FR 10169) that an amendment to Permit No. 782-1719, issued June 30, 2004 (69 FR 44514), had been requested by the above-named organization. The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*) and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

Permit No. 782-1719-05 authorizes NMML to take species of cetaceans under NMFS jurisdiction during stock assessment activities throughout U.S. territorial waters and the high seas of the North Pacific Ocean, Southern Ocean, and Arctic Ocean. The permit authorizes Level B harassment during close approach for aerial surveys, vessel-based surveys, observations, and photo-identification and Level A harassment during biopsy sampling and attachment of scientific instruments. This amendment increases the

authorized number of takes for biopsy sampling and tagging of gray whales (*Eschrichtius robustus*) and non-ESA-listed killer whales (*Orcinus orca*) as well as the takes during close approach for aerial and vessel surveys, photo-identification, tagging, and biopsy sampling of non-endangered dwarf sperm whales (*Kogia breviceps*), pantropical spotted dolphin (*Stenella attenuata*), pygmy sperm whales (*Kogia simus*), rough-toothed dolphins (*Steno bredanensis*), Hawaii spinner dolphins (*Stenella longirostris*), striped dolphins (*Stenella coeruleoalba*), and melon-headed whales (*Peponocephala electra*) in the North Pacific Ocean. The amended permit is valid until the permit expires on June 30, 2009.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.
