## SECURITIES AND EXCHANGE COMMISSION

### Submission for OMB Review; Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension: Rule 17a-3(a)(16), SEC File No. 270-452, OMB Control No. 3235-0508.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. Sec. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for extension of the previously approved collection of information discussed below.

Rule 17a-3(a)(16) (17 CFR 240.17a-3(a)(16)) under the Securities Exchange Act of 1934 (the "Act") (15 U.S.C. 78q *et seq.*) identifies the records required to be made by broker-dealers that operate internal broker-dealer systems. Those records are to be used in monitoring

compliance with the Commission's financial responsibility program and antifraud and antimanipulative rules, as well as other rules and regulations of the Commission and the self-regulatory organizations. It is estimated that approximately 105 active broker-dealer respondents registered with the Commission incur an average burden of 2,835 hours per year (105 respondents multiplied by 27 burden hours per respondent equals 2,835 total burden hours) to comply with this rule. The average cost per hour is \$197. Therefore the total cost of compliance for the respondents is \$558,495.

Rule 17a-3(a)(16) does not contain record retention requirements. Compliance with the rule is mandatory. The required records are available only to the examination staff of the Commission and the self-regulatory organization of which the broker-dealer is a member. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

Comments should be directed to (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503 or by sending an e-mail to: [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov); and (ii) R. ## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-56287; File No. SR-CBOE-2007-41]

### Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Order Approving Proposed Rule Change as Modified by Amendment No. 1 Thereto To Codify Pre-Existing Practices and To Amend and Supplement Rule 24.9

August 20, 2007.

On May 1, 2007, the Chicago Board Options Exchange, Incorporated ("CBOE") filed with the Securities and Exchange Commission ("SEC" or "Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> a proposal to amend Rule 24.9, Terms of Index Options, to codify the pre-existing methodology used for determining the day on which the exercise settlement value of CBOE Volatility Index options and CBOE Increased-Value Volatility Index options (collectively, "Volatility Index options") is calculated and to supplement the manner for determining the day on which the exercise settlement value of Volatility Index options is calculated in the event of an Exchange holiday.

The Exchange submitted Amendment No. 1 to the proposed rule change on June 7, 2007. The proposed rule change was published for comment in the **Federal Register** on July 16, 2007.<sup>3</sup> The Commission received no comments on the proposal. This order approves the proposed rule change as modified by Amendment No. 1.

In this proposal, CBOE proposed to amend Rule 24.9, Terms of Index Options, to codify the pre-existing methodology used for determining the day on which the exercise settlement value of Volatility Index options is calculated.<sup>4</sup> This day is also the expiration date for Volatility Index options and the business day

immediately before the expiration date is the last trading day for Volatility Index options. The Exchange also proposed to supplement the manner for determining the day on which the exercise settlement value of Volatility Index options is calculated in the event of an Exchange holiday.

In general, each Volatility Index is calculated using the quotes of certain index option series (e.g., S&P 500 Index ("SPX") options) to derive a measure of volatility of the U.S. equity market. Under CBOE's current methodology, the day on which the exercise settlement value of a Volatility Index option is calculated and the expiration date of a Volatility Index option is the Wednesday that is thirty days prior to the third Friday of the calendar month immediately following the expiring month of the Volatility Index option.<sup>5</sup> Additionally, the Tuesday immediately before that Wednesday is the last trading day for Volatility Index options.

According to the CBOE, this methodology was chosen because it provides consistency by ensuring that Volatility Index options expire exactly thirty days before the expiration date of the options that are used to calculate the Volatility Indexes and reflects CBOE's belief that the settlement process works best if underlying option series with a single expiration month are used to calculate a Volatility Index. According to CBOE, if underlying options series in two expiration months are used, the number of options series used in the settlement process is markedly increased and the settlement process becomes more complex and cumbersome. Consequently, in this filing the Exchange proposed to amend the existing text of Rule 24.9, relating to the current methodology, to codify its pre-existing practice.

The Exchange further proposed to supplement the current methodology by providing a framework for determining the day on which the exercise settlement value for Volatility Index options will be calculated and the expiration date for Volatility Index options when the Exchange is closed on the third Friday of any given calendar month. Specifically, the Exchange proposed to amend Rule 24.9 to provide that if the third Friday of the month subsequent to the expiration of a Volatility Index option is an Exchange holiday, the exercise settlement value of the Volatility Index option will be calculated on the business day that is thirty days prior to the Exchange
