Authority and Background

Part C of Title III of the Energy Policy and Conservation Act, as amended, 42 U.S.C. 6291 *et seq.*, (EPCA) establishes energy efficiency standards and test

procedures for certain industrial equipment, including electric motors. Further, EPCA states that, "the Secretary [of Energy] shall require manufacturers to certify" that each electric motor meets the applicable efficiency standards. 42 U.S.C. 6316(c). EPCA authorizes the Secretary to carry out this requirement, in part, by issuing the necessary rules requiring each manufacturer or private labeler of covered electric motors to submit information and reports to ensure compliance. 42 U.S.C. 6316(a). This directive is carried out under 10 CFR 431.36, Compliance Certification, which requires a manufacturer or private labeler to submit a compliance statement, as well as a certification report that provides energy efficiency information for each basic model of electric motor that it distributes in commerce in the United States.

The compliance certification information collection request, at appendix C to subpart B of 10 CFR Part 431, provides a format for a manufacturer or private labeler to certify compliance with the applicable energy efficiency standards prescribed under section 342(b)(1) of EPCA, 42 U.S.C. 6313(b)(1), through an independent testing or certification program nationally recognized in the United States (EPCA 345(c), 42 U.S.C. 6316(c)). Compliance Certification information is used by DOE and United States Customs Service officials and facilitates voluntary compliance with and enforcement of the energy efficiency standards established for electric motors under EPCA 342(b)(1), 42 U.S.C. 6313(b)(1).

SUPPLEMENTARY INFORMATION: Today's notice and information collection request pertains: (1) OMB No.: 1910-5104. (2) Collection Title: Title 10 Code of Federal Regulations Part 431—Energy Efficiency Program for Certain Commercial and Industrial Equipment: Subpart B—Electric Motors: Appendix C to Subpart B of Part 431—Compliance Certification. (3) Type of Review: Renewal. (4) Purpose: Regulations that, in part, (1) Require the manufacturer of private labeler of certain commercial or industrial electric motors subject to energy efficiency standards prescribed under section 342(b) of EPCA to establish, maintain, and retain records of its test data and subsequent verification of any alternative efficiency determination method used under Part 431, and (2) preclude distribution in commerce of any basic model of commercial or industrial electric motor which is subject to an energy efficiency standard set forth under subpart B of

Part 431, unless it has submitted a Compliance Certification to DOE according to the provisions under 10 CFR 431.36, that the basic model meets the requirements of the applicable standard. This collection of information ensures compliance with the energy efficiency for certain commercial and industrial electric motors. (5) Estimated Number of Respondents: 84. (6) Estimated Total Burden Hours: 25,200 total hours requested (approximately 300 hours per manufacturer or private labeler). (7) Number of Collections: The package contains one information and recordkeeping requirement.

Comments are invited on: (a) Whether the information collections are necessary for the proper performance of the functions of the DOE, including whether the information has practical utility; (b) the accuracy of the DOE's estimate of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collections on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB review and approval of these information collections. The comments will also become a matter of public record.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC on September 4, 2007.

Alexander A. Karsner,

Assistant Secretary, Energy Efficiency and Renewable Energy.
