AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed revised information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the long-term evaluation

form used to evaluate all National Fire Academy (NFA) resident training.

SUPPLEMENTARY INFORMATION: The NFA is mandated under the Fire Prevention and Control Act of 1974 (Pub. L. 93–498) to provide training and education to the Nation's fire service and emergency service personnel. The state-of-the-art programs offered by the NFA serve as models of excellence and state and local fire service agencies rely heavily on the curriculum to train their personnel. To maintain the quality of these training programs, it is critical that courses be evaluated after students have had the opportunity to apply the knowledge and skills gained from their training.

Abstract: The National Fire Academy Long-term Evaluation Form will be used to evaluate all National Fire Academy (NFA) on-campus resident training courses. Course graduates and their supervisors will be asked to evaluate the impact of the training on both individual job performance and the fire and emergency response department/community where the student works. The data provided by students and supervisors is used to update existing NFA course materials and to develop new courses that reflect the emerging issues/needs of the Nation's fire service.

have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments must be submitted on or before November 20, 2007.
