

transmission systems as may be available. If the contractor cannot take delivery of Navajo Surplus into its own system at these delivery points, transmission service arrangements to other delivery points will be the obligation of the contractor.

C. CAWCD may be a party to contracts for the sale or Exchange of Navajo Surplus for the limited purposes of (i) concurring that the contracts optimize the financial assistance available for the purposes set forth in 43 U.S.C. 1543(f), as amended by the Arizona Water Settlements Act of 2004, Pub. L. 108–451, and (ii) affirming any rights and obligations of CAWCD under the contracts.

D. Western and the contractor shall agree upon written metering and scheduling instructions prior to any deliveries under this Plan. The metering and scheduling instructions shall provide the operating and accounting procedures for such deliveries. Metering and scheduling instructions are intended to implement terms of the contract, not to modify or amend it, and therefore are subordinate to the contract. Western and the contractor may modify these instructions, as necessary, to reflect changing power system conditions. In the event the contractor fails or refuses to execute the initial metering and scheduling instructions or any revised instructions Western determines to be necessary, Western shall develop and implement temporary instructions until acceptable instructions have been developed and executed by Western and the contractor.

VIII. Rate-Setting

A. Rates for Navajo Surplus developed pursuant to section IV.A shall be established annually by Reclamation and Western, in consultation with CAWCD, through a competitive process that optimizes the availability and use of revenues for the Development Fund with priority to entities in accordance with section VI.A. and that allows for an appropriate saving for the contractor, taking into consideration, among other factors, prices for comparable capacity and energy products.

B. Rates for Navajo Surplus developed under section IV.B or marketed under the first opportunity provision of the Original Plan shall be established in the contracts for sale of such Navajo Surplus, taking into consideration, among other factors, prices for comparable capacity and energy products, and allowing for an appropriate saving for the contractor.

C. Rates developed annually pursuant to this Plan shall not be applicable to

pre-existing contracts unless provided for in such contracts.

D. Because of the Hoover Power Plant Act of 1984's, Pub. L. 98–381, requirements for noncost-based rates, the Rates established pursuant to this Plan are not suitable to the required review of Western's rates by the Federal Energy Regulatory Commission. All Rates promulgated by the Administrator of Western under this Plan shall be a final act of the Secretary of Energy and shall be subject to review pursuant to the judicial review provided by the Administrative Procedure Act (5 U.S.C. 553, *et seq.*).

IX. Revenue Collection and Distribution

Western shall deposit all revenue collected from the marketing of Navajo Surplus under this Plan into the Development Fund, where it will be used:

A. First, to pay all costs of operation and maintenance determined to be associated with the sale and Exchange of Navajo Surplus, including actual costs for services performed by Reclamation and Western under this Plan including appropriate administrative expenses of Reclamation and Western.

B. Second, for the purposes set forth in 43 U.S.C. 1543(f), as amended by the Arizona Water Settlements Act of 2004, Pub. L. 108–451, including crediting funds against the annual CAWCD repayment obligation and funding specific Indian water-related activities.

X. Effective Date

This Plan will become effective 30 days after publication in the **Federal Register** following adoption by the Secretary of the Department of the Interior.

XI. Consultation

This Plan is deemed most acceptable in accordance with section 107(c) of the Hoover Power Plant Act of 1984, Pub. L. 98–381, after consultation with Western (Secretary of Energy), the Governor of Arizona, and CAWCD.

Adopted:

Dated: September 18, 2007.

Robert W. Johnson,

Commissioner, Bureau of Reclamation.
