Ethofumesate; Modification and Closure of Reregistration Eligibility Decision; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's intention to modify certain risk mitigation measures that were imposed as a result of the 2005 Reregistration Eligibility Decision (RED) for the pesticide ethofumesate, and opens a public comment period on these changes. EPA conducted this reassessment of the ethofumesate RED in response to new dermal absorption data submitted by the technical registrant, Bayer CropScience, Inc. These data allowed the Agency to modify its original assumption of 100% dermal absorption to 27% and thus modify the ethofumesate label requirements including: removing the 9-day re-entry interval for maintenance activity and adjusting the existing harvest prohibition for sod from 16 days to 3 days.
