Notice of Availability to Distribute a Final Environmental Impact Statement for the Construction of a New Border Station Facility in Madawaska, Maine

AGENCY: Public Buildings Service, GSA.

ACTION: Notice of Availability.

SUMMARY: The General Services Administration (GSA) announces its intent to distribute a Final Environmental Impact Statement (Final EIS) under the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4321-4347 (NEPA) to assess the potential impacts of the construction of a New Border Station Facility in Madawaska, Maine (the "Proposed Action"). At the request of Customs and Border Protection (CBP), the GSA is proposing to construct a new border station facility which meets their needs, and the design requirements of the GSA.

The existing facilities are undersized and obsolete, and consequently incapable of providing the level of security now required. The Proposed Action has been defined and includes: (a) Identification of land requirements, including acquisition of adjoining land; (b) demolition of existing government structures at the border station; (c) construction of a main administration building and ancillary support buildings; and (d) consequent potential alterations to secondary roads.

Studied alternatives have identified alternative locations for the components of the border station including the main administration and ancillary support buildings, the associated roadway

network and parking. A No Action alternative has also been studied and evaluates the consequences of not constructing the new border station facility. This alternative has been included to provide a basis for comparison to the action alternatives described above as required by NEPA regulations (40 CFR 1002.14(d)).

Following this thirty (30) day notice in the **Federal Register**, GSA will issue a Record of Decision (ROD) at which time its availability will be announced in the **Federal Register** and local media.

Title of Information Collection: The National Evaluation of the Rural/ Frontier Women's Health Coordinator Center Program.

Form/OMB No.: 0990—New.

Use: The Department of Health and Human Services Office on Women's Health (OWH) is seeking clearance to conduct data collection efforts as part of the National Evaluation of the Rural/ Frontier Coordinating Center (RFCC) program. The Office on Women's Health funded the creation of three RFCCs in September 2004, and awarded eight additional RFCC contracts in fiscal year 2005. The impetus for creating the RFCCs was to, "identify, coordinate, and leverage the network of existing resources to provide a full range of culturally and linguistically appropriate health services to women and their families. To effectively meet the numerous health care needs of this diverse population, rural health providers must not only offer comprehensive health care services but also integrate these services to maximize awareness, access, and quality. RFCCs were created to accomplish this task. Evaluating the effectiveness of RFCCs is essential for determining whether these centers are the best vehicles for "coordinating and leveraging new and existing resources for women's health in rural and frontier communities." The OWH is seeking to evaluate all eleven RFCCs. This evaluation will also enable the OWH to determine how well RFCCs are facilitating access to integrated and comprehensive primary care services to women and their families residing in rural and frontier regions of the U.S.
