

proposed information collection activities include revisions to the Customer Satisfaction Evaluation approved under OMB control number 0970-0303.

CWIG is a service of the Children's Bureau, a component within the Administration for Children and Families, and CWIG is dedicated to the mission of connecting professionals and concerned citizens to information on programs, research, legislation, and statistics regarding the safety, permanency, and well-being of children and families. CWIG's main functions are identifying information needs, locating

and acquiring information, creating information, organizing and storing information, disseminating information, and facilitating information exchange among professionals and concerned citizens. A number of vehicles are employed to accomplish these activities, including, but not limited to, Web site hosting, discussions with customers, and dissemination of publications (both print and electronic).

The Customer Satisfaction Evaluation was initiated in response to Executive Order 12862 issued on September 11, 1993. The order calls for putting customers first and striving for a

customer-driven government that matches or exceeds the best service available in the private sector. To that end, CWIG's evaluation is designed to better understand the kind and quality of services customers want, as well as customers' level of satisfaction with existing services. The proposed data collection activities for the evaluation include customer satisfaction surveys, customer comment cards, selected publication surveys, and focus groups.

Respondents: Child Welfare Information Gateway customers.

Title: Community-Based Abstinence Education Program (CBAE).

OMB No.: 0970-0272.

Description: The discretionary funding Community-Based Abstinence Education Program (CBAE) is authorized by Title XI, Section 1110, of the Social Security Act (using the definitions contained in Title V, Section 510(b)(2) of the Social Security Act).

Performance Progress Report/Program Narrative

The CBAE *Performance Progress Report/Program Narrative* is a semiannual report form through which grantees report performance information used by the Administration for Children and Families (ACF) to evaluate each

grantee's compliance with Federal law and progress toward achieving its goals. Performance information includes:

- Description of major activities and accomplishments during the reporting period;
- Description of deviations or departures from the original project;
- Description of significant findings and events;
- Description of dissemination activities;
- Description of other activities; and
- Description of activities planned for the next reporting period, including goals and objectives.

Program-Specific Performance Measure

The CBAE program is developing a program-specific performance measure in response to the PART review (a process by which the Office of Management and Budget analyzes and rates a Federal program's procedures and strategies for evaluating its effectiveness), for which the program received a rating of Adequate. In an effort to gather program-specific data on rates of abstinence pre- and post-program participation, ACF and the Office of Management and Budget determined that a program-specific performance measure should be developed to assess key outcomes among program participants. The CBAE office convened a panel of abstinence education experts to gather input on the measure, and, based on the input

provided, the CBAE office is developing the measure. CBAE grantees will be required to ask ten to fifteen questions of the youth served in a pre- and post-survey, as well as a representative sample of the youth served in a post-post-survey.

The questions are being carefully constructed by an experienced evaluator to measure initiation and discontinuation of sexual intercourse as

well as two key predictors of initiation: Sexual values and behavioral intentions.

The program office will collect and compile data to establish baselines and ambitious targets for the program-specific performance measure. The data will be aggregated and results will be shared with the public as they become available.

Respondents: Performance Progress Report/Program Narrative—Non-profit

community-based organizations, faith-based organizations, schools/school districts, universities/colleges, hospitals, public health agencies, local governments, Tribal councils, small businesses/for-profit entities, housing authorities, etc. *Program-Specific Performance Measure—Youth Participants*

Proposed Projects

Title: Social Services Block Grant (SSBG) Post-expenditure Report.

OMB No.: 0970-0234.

Description: The purpose of this information collection is to (1) extend the collection of post-expenditure data using the current OMB approved reporting form (OMB No. 0970-0234) past the current expiration date of May 31, 2008; and (2) request that States voluntarily use the post-expenditure report format to estimate expenditures and recipients, by service category, as part of the required annual intended use plan.

The Social Services Block Grant program (SSBG) provides funds to assist States in delivering critical services to vulnerable older adults, persons with disabilities, at-risk adolescents and young adults, and children and families in the State. Funds are allocated to the States in proportion to their populations. States have substantial discretion in their use of funds and may determine what services will be provided, who will be eligible, and how funds will be distributed among the various services. State or local SSBG agencies (i.e., county, city, regional offices) may provide the services or may purchase them from qualified agencies, organizations or individuals. States report as recipients of SSBG-funded services any individuals who receive a

service funded in whole or in part by SSBG.

States are required to report their annual SSBG expenditures on a standard post-expenditure report. This request seeks approval to continue the use of the current form with no changes. This standard post-expenditure report form includes a yearly total of adults and children served and annual expenditures in each of 29 service categories. The annual report is to be submitted within six months of the end of the period covered by the report, and must address: (1) The number of individuals (as well as the number of children and the number of adults) who receive services paid for, in whole or in part, with Federal funds under the SSBG; (2) the amount of SSBG funds spent in providing each service; (3) the total amount of Federal, State, and local funds spent in providing each service, including SSBG funds; and (4) the method(s) by which each service is provided, showing separately the services provided by public and private agencies. These reporting requirements can be found at 45 CFR 96.74.

Information collected on the post-expenditure report is analyzed and described in an annual report on SSBG expenditures and recipients produced by the Office of Community Services (OCS), Administration for Children and Families (ACF). The information contained in this report is used for program planning and management. The data establish how SSBG funding is used for the provision of services in each State to each of many specific populations of needy individuals.

Federal regulation and reporting requirements for the SSBG also require each State to develop and submit an
