Various Acts authorize these programs to carry out projects relating to research, consumer information, advertising, sales promotion, producer information, market development and product research to assist, improve, or promote the marketing, distribution, and utilization of their respective commodities. The Agricultural Marketing Service (AMS) has the responsibility to appoint board members and approve the boards' budgets, plans, and projects and for foreign projects, the Foreign Agricultural Service. AMS' objective in carrying out this responsibility is to assure the following: (1) Funds are collected and properly accounted for; (2) expenditures of all funds are for the purposes authorized by enabling legislation; and (3) the board's administration of the programs conforms to USDA policy.

Need and Use of the Information: The boards administer the various programs utilizing a variety of forms to carry out their responsibilities. Only authorized employees of the various boards and USDA employees will use the information collected. If this data were collected less frequently, (1) it would hinder data needed to collect and refund assessments in a timely manner and result in delayed or even lost revenue; (2) boards would be unable to carry out the responsibilities of their respective Acts; and (3) requiring reports less frequently than monthly would impose additional record keeping requirements.
