Request written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

Enhance the quality, utility, and clarity of the information to be collected; and

Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* New.

(2) *Title of the Form/Collection:* Survey of Law Enforcement's Forensic Backlogs.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* None. National Institute of Justice, Office of Justice Programs, U.S. Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* State and local law enforcement officials.

The National Institute of Justice will use this survey to determine the size and nature of forensic evidence backlogs in state and local law enforcement

agencies. For the purposes of this survey, these forensic backlogs are defined as the number of homicide, rape, and property crime cases that contain forensic evidence but that have not been submitted to forensic crime laboratories for analysis. The 2005 Census of Crime Laboratories conducted by the Bureau of Justice Statistics details the size of forensic evidence backlogs in the nation's crime laboratory system. In order to develop a complete picture of forensic backlogs across the criminal justice system, the Survey of Law Enforcement's Forensic Backlogs will provide much needed information on forensic evidence backlogs in state and local law enforcement agencies.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 2,975 respondents with an average burden time of 30 minutes—1,488 hours total.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 1,488 hours.

This information collection covers the whistleblower protection provisions under the following statutes: (1) Safe Water Drinking Act, 42 U.S.C. 300j-9(f); (2) Water Pollution Control Act, 33 U.S.C. 1367; (3) Toxic Substances Control Act, 15 U.S.C. 2622; (4) Solid Waste Disposal Act, 42 U.S.C. 7001; (5) Clean Air Act, 42 U.S.C. 7622; (6) Energy Reorganization Act of 1974, 42 U.S.C. 5851, (7) Comprehensive Environmental Response, Compensation

Employees who believe that they have been discriminated against by employers, in violation of whistleblower provisions in certain law, for reporting unlawful practices that adversely affect occupational safety and health, and the environment, are required to place their allegations in writing so they may, where appropriate, be investigated by the Department of Labor.
