

OCC–2006–06.⁹ Therefore, the surcharge currently referenced in OCC's Schedule of Fees in connection with the DDS conversion is no longer applicable and will be removed along with each of the other above-described items.

3. Supplement to Agreement for OCC Services: Theoretical Profit and Loss Values

Exhibit 5C to SR–OCC–2007–10 is the Supplement to the Agreement for OCC Services: Theoretical Profit and Loss Values to be entered into between OCC and clearing members subscribing to Theoretical Profit and Loss Values ("Supplement").¹⁰ The Supplement is structured to fit within OCC's existing framework for the Agreement for OCC Services and will replace the current form agreement between clearing members and OCC. The provisions are generally self-explanatory, and they are intended to describe the respective responsibilities of OCC and the subscribing clearing member. Section 1 describes the Theoretical Profit and Loss Values and identifies the available means of downloading the data. Sections 2 and 3 set forth the authorized scope of use of the data and related documentation. Section 4 describes the clearing member's obligations with respect to security and access codes. Section 5 describes the fees associated with the data. Section 6 sets forth the confidential nature of the data and documentation. Sections 7 through 11 set forth further responsibilities of the parties including warranties, liability, and indemnification. Section 12 describes the termination rights of the parties. Section 13 contains general terms regarding survival of certain provisions. Exhibit A to the Supplement is the form of acknowledgment to be signed by a managed clearing member.

The proposed rule change is consistent with Section 17A of the Act because it involves a fee, due, or charge applicable to subscribers of information that provides for a reasonable allocation of costs. The proposed rule change is not inconsistent with the existing rules of OCC, including any other rules proposed to be amended.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change changes fees charged by OCC, it has become effective pursuant to section 19(b)(3)(A)(ii) of the Act¹¹ and Rule 19b–4(f)(2)¹² thereunder. At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

To help the Commission process and review your comments more efficiently, please use only one method. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written
