ICR Status: This ICR is scheduled to expire on November 30, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR provides a discussion of all of the information collection requirements associated with specific unit standards applicable to owners and operators of facilities that treat, store, or dispose of hazardous wastes as defined by 40 CFR part 261. It includes a detailed description of the data items and respondent activities associated with each requirement and with each hazardous waste management unit at a facility. With each information collection covered in this ICR, EPA is aiding the goal of complying with its statutory mandate under RCRA to develop standards for hazardous waste treatment, storage, and disposal facilities, to protect human health and the environment. Without the information collection, the agency cannot assure that the facilities are designed and operated properly.

Title: Clean Air Act Tribal Authority (Renewal).

ICR Numbers: EPA ICR No. 1676.05, OMB Control No. 2060-0306.

ICR Status: This ICR is scheduled to expire on 12/31/2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. Abstract: This Information Collection Request (ICR) seeks authorization for tribes to demonstrate their eligibility to be treated in the same manner as states under the Clean Air Act (CAA) and to submit applications to implement a CAA program. This ICR extends the collection period of information for

determining eligibility, which expires December 31, 2007.

The program regulation provides for Indian tribes, if they so choose, to assume responsibility for the development and implementation of CAA programs. The regulation, Indian Tribes: Air Quality Planning and Management (Tribal Authority Rule [TAR] 40 CFR parts 9, 35, 49, 50 and 81), sets forth how tribes may seek authority to implement their own air quality planning and management programs. The rule establishes: (1) Which CAA provisions Indian tribes may seek authority to implement, (2) what requirements the tribes must meet when seeking such authorization, and (3) what Federal financial assistance may be available to help tribes establish and manage their air quality programs. The TAR provides tribes the authority to administer air quality programs over all air resources, including non-Indian owned fee lands, within the exterior boundaries of a reservation and other areas over which the tribe can demonstrate jurisdiction. An Indian tribe that takes responsibility for a CAA program would essentially be treated in the same way as a state would be treated for that program.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Indian tribes.

Estimated Number of Respondents: 27.

Frequency of Response: One-time application.

Estimated Total Annual Hour Burden: 360.

Estimated Total Annual Cost: \$18,838.20, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is no change in hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: November 20, 2007.
