

each rotary spin (RS) manufacturing line producing building insulation; each new and existing flame attenuation (FA) manufacturing line that produces pipe products; and each new FA manufacturing line that produces heavy density products. Plants that manufacture mineral wool from rock or slag are not subject to the proposed rule but are subject to a separate NESHAP standard for mineral wool production. A facility that is determined to be an area source would not be subject to this NESHAP standard. This information is being collected to assure compliance with 40 CFR part 60, subpart PPP and 40 CFR part 63, subpart NNN.

In general, all NSPS and NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to both the NSPS and NESHAP.

Any owner or operator subject to the provisions of 40 CFR part 60, subpart PPP shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records. Any owner or operator subject to the provisions of 40 CFR part 63, subpart NNN shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports for both the NSPS and NESHAP are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 101 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wool Fiberglass Manufacturing Plants.

Estimated Number of Respondents: 61.

Frequency of Response: Initially, on occasion and semiannually.

Estimated Total Annual Hour Burden: 18,216.

Estimated Total Annual Cost: \$1,599,551, that is comprised of no capital costs, \$489,000 in O&M costs and \$1,110,551 in labor costs.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is low, negative or non-existent, so there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR, and there is no change in burden to industry.

Dated: February 14, 2007.

Title: NSPS for Automobile and Light Duty Truck Surface Coating Operations (Renewal).

ICR Numbers: EPA ICR Number 1064.15, OMB Control Number 2060-0034.

ICR Status: This ICR is scheduled to expire on February 28, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This Information Collection Request (ICR) renewal is being submitted for the NSPS for Automobile and Light Duty Truck Surface Coating Operations (40 CFR part 60, subpart MM), which were promulgated on December 24, 1980 (45 FR 85415). *These standards apply to the following automobile and light duty truck assembly plant lines:* each prime coat operation, guide coat operation, and top coat operation commencing construction, modification or reconstruction after the date of proposal. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60 subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart MM.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 745 hours per response. Burden means the total time,

effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Automobile and light duty truck surface coating operations.

Estimated Number of Respondents: 54.

Frequency of Response: Initially, semi-annually, and quarterly.

Estimated Total Annual Hour Burden: 156,362.

Estimated Total Annual Cost: \$9,733,981, which includes \$1,700 annualized capital startup costs, \$91,000 annualized operating and maintenance (O&M) costs, and \$9,641,281 annualized labor costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: February 14, 2007.

Insect Repellent-Sunscreen Combination Products; Request for Information and Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comment.

SUMMARY: EPA is seeking information to determine how insect repellent-sunscreen combination products should be regulated in order to complete the reregistration review which was described in the Reregistration Eligibility Decision (RED) document for the insect repellent DEET. This action would consider issues such as labeling,

product performance and applicable safety standards for all currently (and any future) registered insect repellent-sunscreen combination products. The sunscreen components of these products are regulated by the Food and Drug Administration (FDA). Elsewhere in this issue of the **Federal Register** is a companion notice in which the FDA is also requesting information and comments on these products and for which the FDA will be considering rulemaking. The decision on what if any change in the way these products are regulated will consider information and comments submitted in response to this Notice.

DATES: Comments must be received on or before May 23, 2007.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2007-0087, by one of the following methods:

• **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

• **Mail:** Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

• **Delivery:** OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. Deliveries are only accepted during the Docket's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2007-0087. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The Federal www.regulations.gov website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically
