*Title:* Notice Regarding Unauthorized Access to Customer Information.

*OMB Number:* 1557–0227.

*Description:* Section 501(b) of the Gramm-Leach-Bliley Act (15 U.S.C. 6901) requires the OCC to establish standards for national banks relating to administrative, technical, and physical safeguards to: (1) Insure the security and confidentiality of customer records and information; (2) protect against any anticipated threats or hazards to the security or integrity of such records; and (3) protect against unauthorized access to or use of such records or information that could result in substantial harm or inconvenience to any customer.

The Interagency Guidelines Establishing Information Security Standards, 12 CFR Part 30, Appendix B (Security Guidelines) implementing section 501(b) require each bank to consider and adopt a response program, if appropriate, that specifies actions to be taken when the bank suspects or detects that unauthorized individuals have gained access to customer information.

The Interagency Guidance on Response Programs for Unauthorized Customer Information and Customer Notice (Breach Notice Guidance), which interprets the Security Guidelines states that, at a minimum, a bank’s response program should contain procedures for the following:

(1) Assessing the nature and scope of an incident, and identifying what customer information systems and types of customer information have been accessed or misused;

(2) Notifying its primary Federal regulator as soon as possible when the bank becomes aware of an incident involving unauthorized access to or use of sensitive customer information;

(3) Consistent with the OCC’s Suspicious Activity Report regulations, notifying appropriate law enforcement authorities, in addition to filing a timely SAR in situations involving Federal criminal violations requiring immediate attention, such as when a reportable violation is ongoing;

(4) Taking appropriate steps to contain and control the incident to prevent further unauthorized access to or use of customer information, for example, by monitoring, freezing, or closing affected accounts, while preserving records and other evidence; and

(5) Notifying customers when warranted.

### SUPPLEMENTARY INFORMATION:

*Title:* Agent Orange Registry Code Sheet, VA Form 10–9009.

OMB Control Number: 2900-0376.

Type of Review: Extension of a currently approved collection.

Abstract: VA in an on-going effort to maintain an Agent Orange Registry (AOR) developed a reporting format to facilitate the collection of information obtained from veterans during the Agent Orange registry examination process. VA is required to organize and update the information contained in AOR to be able to notify Vietnam era veterans who served in the Republic of Vietnam of any increased health risks resulting from exposure to dioxin or other toxic agents. VA may also provide, upon request, a health examination, consultation, and counseling veterans who are eligible for listing or inclusion in any health-related registry administered by VA that is similar to the Persian Gulf War Veterans Health Registry. Registry examinations are provided to veterans who served in Korea in 1968 or 1969, and/or any U.S. veteran who may have been exposed to dioxin, or other toxic substance in a herbicide or defoliant, during the conduct of, or as a result of, the testing, transporting, or spraying of herbicides, and who requests an Agent Orange Registry examination. VA will enter the information obtained from the veteran during the interview on VA Form 10-9009, Agent Orange Registry Code Sheet. The registry will provide a mechanism that will catalogue prominent symptoms, reproductive health, and diagnoses and to communicate with Agent Orange veterans. VA will inform the veterans on research finding or new compensation policies through periodic newsletters. The registry is not designed or intended to be a research tool and therefore the results cannot be generalized to represent all Agent Orange veterans.
