

submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review", (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, and (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB Control Number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0139.

Title: Application for Antenna Structure Registration.

Form No.: FCC Form 854.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 4,500 respondents; 4,500 responses.

Estimated Time Per Response: .50 hours to complete FCC Form 854; 1 hour to place registration number at base of antenna structure.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement, third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 6,750 hours.

Total Annual Cost: \$98,100.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: Respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

This information collection contains personally identifiable information on individuals which is subject to the Privacy Act of 1974. Information on the FCC Form 854 is maintained in the Commission's system of records, FCC/WTB-1, "Wireless Services Licensing Records." These licensee records are publicly available and routinely used in accordance of subsection b of the Privacy Act, 5 U.S.C. 552a(b), as amended. Taxpayer Identification Numbers (TIN) and materials that are

afforded confidential treatment pursuant to a request made under 47 CFR 0.459 will be not available for public inspection.

The Commission has in place the following policy and procedures for records retention and disposal: Records will be actively maintained as long as the individual remains a tower owner. Paper records will be archived after being keyed or scanned into the system. Electronic records will be backed up on tape. Electronic and paper records will be maintained for at least twelve years.

Needs and Uses: The FCC Form 854 is used to register structures used for wire or radio communication services in any area where radio services are regulated by the Commission; to make changes to existing registered structures or pending applications; or to notify the Commission of the completion of construction or dismantlement of structures, as required by Title 47 of the Code of Federal Regulations (CFR), Chapter 1, Part 17 (FCC Rules Part 17). Section 303(q) of the Communications Act of 1934, as amended, requires the Commission to require the painting and/or illumination of radio towers in cases where there is a reasonable possibility that an antenna structure may cause a hazard to air navigation. In 1992, Congress amended Sections 303(q) and 503(b)(5) of the Communications Act to: (1) Make antenna structure owners, as well as Commission licensees and permittees responsible for the painting and lighting of antenna structures, and (2) to provide that non-license antenna structure owners may be subject to forfeiture for violations of painting or lighting requirements specified by the Commission.

Currently, each antenna structure owner proposing to construct or alter an antenna structure that is more than 60.96 meters (200 feet) in height, or that may interfere with the approach or departure space of a nearby airport runway must notify the Federal Aviation Administration (FAA) of proposed construction. The FAA determines whether the antenna structure constitutes a potential hazard, and may recommend appropriate painting and lighting for the structure. The Commission then uses the FAA's recommendation to impose specific painting and/or lighting requirements on subject licensees.

The Commission is seeking an extension (no change to the reporting, recordkeeping and/or third party disclosure requirements) in order to obtain the full three year clearance from them. Finally, the Commission is adjusting the annual cost burden due to

fewer respondents using an outside law firm to perform these functions.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
