DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[NHTSA-2009-0051]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatements of previously approved collections. This document describes one collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before May 11, 2009.

ADDRESSES: Direct all written comments to U.S. Department of Transportation Dockets, 1200 New Jersey Ave., SE., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: David Bonelli, Office of Chief Counsel, NCC-110, telephone (202) 366-1834, fax (202) 366-3820; NHTSA, 1200 New Jersey Ave., SE., Washington, DC 20590.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for

approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Designation of Agent for Service of Process.

OMB Control Number: 2127-0040.

Requested Expiration Date of Approval: Three years from the approval date.

Type of Request: Extension of previously approved collection.

Affected Public: Business or other for-profit.

Form Number: N/A.

Abstract: This collection of information applies to motor vehicle and motor vehicle equipment manufacturers located outside of the United States ("foreign manufacturers"). Section 110(e) of the National Traffic and Motor Vehicle Safety Act of 1966 (49 U.S.C. 30164) requires a foreign manufacturer offering a motor vehicle or motor vehicle equipment for importation into the United States to designate a permanent resident of the United States as its agent upon whom service of notices and processes may be made in administrative and judicial proceedings. These designations are required to be filed with NHTSA. NHTSA requires this information in case it needs to advise a foreign manufacturer of a safety related defect in its products so that the manufacturer

can, in turn, notify purchasers and correct the defect. This information also enables NHTSA to serve a foreign manufacturer with all administrative and judicial processes, notices, orders, decisions and requirements.

When NHTSA amended the regulation implementing that statutory requirement, codified at 49 CFR Part 551, subpart D, NHTSA included an appendix containing a suggested designation form for use by foreign manufacturers and their agents. The purpose of the suggested designation format was to simplify the information collection and submission process, and thereby reduce the burden imposed on each covered manufacturer by 49 CFR Part 551, subpart D. To further streamline the information collection process, NHTSA has set up a customer Web site that may be accessed at <http://www.nhtsa.dot.gov/cars/rules/manufacture/agent/customer.html>.

Estimated Annual Burden: 120 hours.

Estimated Number of Respondents: 240 respondents.

The Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on: March 9, 2009.

Assistant Chief Counsel for Legislation and General Law.

[Docket No. NHTSA-2008-0119; Notice 2]

Goodyear Tire & Rubber Company, Grant of Petition for Decision of Inconsequential Noncompliance

Goodyear Tire & Rubber Company (Goodyear), has determined that certain passenger car tires manufactured from 2007 until March 2008 did not fully comply with paragraph S5.5(f) of Federal Motor Vehicle Safety Standards (FMVSS) No. 139 *New Pneumatic*

Radial Tires for Light Vehicles.

Goodyear has filed an appropriate report pursuant to 49 CFR Part 573, *Defect and Noncompliance Responsibility and Reports.*

Pursuant to 49 U.S.C. 30118(d) and 30120(h) and the rule implementing those provisions at 49 CFR Part 556, Goodyear has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety. Notice of receipt of the petition was published, with a 30-day public comment period, on June 26, 2008 in the **Federal Register** (73 FR 36372). No comments were received. To view the petition and all supporting documents log onto the Federal Docket Management System Web site at: <http://www.regulations.gov/>. The markings must be placed between the maximum section width and the bead on at least one sidewall, unless the maximum section width of the tire is located in an area that is not more than one-fourth of the distance from the bead to the shoulder of the tire. If the maximum section width falls within that area, those markings must appear between the bead and a point one-half the distance from the bead to the shoulder of the tire, on at least one sidewall. The markings must be in letters and numerals not less than 0.078 inches high and raised above or sunk below the tire surface not less than 0.015 inches * * *
