Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Reviews of 58 Species in California, Nevada, Arizona, and Utah; Availability of Completed 5-Year Reviews in California and Nevada

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of 5-year reviews; availability of completed 5-year reviews.

SUMMARY: We, the U.S. Fish and Wildlife Service, initiate 5-year reviews for 58 species under the Endangered Species Act of 1973, as amended (Act). We request any new information on these species that may have a bearing on their classification as endangered or threatened (see Table 1 below). Based on the results of these 5-year reviews, we will make a finding on whether these species are properly classified under the Act. We also indicate in this notice 42 5-year reviews we completed for species in California and Nevada in mid to late Fiscal Year (FY) 2008. Reviews we completed for 16 species in early FY 2008 were indicated in our previous initiation notice published in the **Federal Register** on March 5, 2008 (73 FR 11945).

DATES: To allow us adequate time to conduct these reviews, we must receive your information no later than May 26, 2009. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how to submit information and review the information that we receive on these species, see "Public Solicitation of New Information."

FOR FURTHER INFORMATION CONTACT: For species-specific information, contact the

appropriate person listed under "Public Solicitation of New Information." For contact information about completed 5-year reviews, see "Completed 5-Year Reviews." Individuals who are hearing-impaired or speech-impaired may call the Federal Relay Service at (800) 877-8337 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Why Do We Conduct a 5-Year Review

Under the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*), we maintain a List of Endangered and Threatened Wildlife and Plants at 50 CFR 17.11 (for animals) and 17.12 (for plants) (List). We amend the List by publishing final rules in the **Federal Register**. Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. Section 4(c)(2)(B) requires that we determine (1) whether a species no longer meets the definition of threatened or endangered and should be removed from the List (delisted); (2) whether a species listed as endangered more properly meets the definition of threatened and should be reclassified to threatened; or (3) whether a species listed as threatened more properly meets the definition of endangered and should be reclassified to endangered. Using the best scientific and commercial data available, a species will be considered for delisting if the data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification requires a separate rulemaking process. We are requesting submission of any new information (best scientific and commercial data) on these species since they were originally listed or since the species' most recent status review.

Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under review. This notice announces initiation of our active review of 58 species in California, Nevada, Arizona, and Utah. This notice announces initiation of our active review of the species in Table 1.
