

recommendations of the Risk Management Advisory Committee will be used by the Commission in evaluating regulatory and legislative issues falling within the Commission's statutory responsibilities. The committee also will serve as a vehicle for informed discussion of emerging issues relating to risk management and for communication regarding such issues among the Commission, market participants, regulators, and other relevant persons.

The Risk Management Advisory Committee will have no operational responsibilities. The Commission will seek to achieve a balanced membership by appointing representatives of a cross section of the groups and interests involved in or affected by the Commission's actions relating to risk management.

The Commission has determined that establishment of the Risk Management Advisory Committee is in the public interest and is necessary to enable the Commission to carry out its responsibilities in the most effective and responsive manner. Risk management is both a central purpose of the markets regulated by the Commission and a necessary component of their effective functioning. Recent economic developments have demonstrated the critical importance of risk management and the need for clearinghouses, firms and other market participants to thoroughly and systematically assess their risk management practices. Recent developments have similarly reemphasized the need for the Commission to effectively and efficiently assess industry risk controls, determine their ongoing effectiveness, and tailor oversight of regulated entities based upon accurate risk assessments. In these circumstances, an advisory committee focused on risk management will significantly advance the Commission's ability to carry out its mission.

The charter of the Risk Management Advisory Committee will become effective upon its filing pursuant to 5 U.S.C. App. 2 section 9(c). The Commission expects to file the charter promptly upon completion of the 15 day notice period specified by 41 CFR 102-3.65(b).

Interested persons may obtain information by writing to the Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581.

Issued in Washington, DC on April 2, 2009, by the Commission.

David Stawick,

Secretary of the Commission.

Department of the Army

Notice of Availability for the Record of Decision (ROD) for Implementation of Fort Carson Grow the Army (GTA) Stationing Decisions

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability (NOA).

SUMMARY: The Executive Director of the Army's Installation Management Command has reviewed the Final Environmental Impact Statement (EIS)

for Implementation of Fort Carson Grow the Army Stationing Decisions and has made the decision to proceed with all facets of the Proposed Action, with the exception that the Army has decided not to station a Combat Aviation Brigade (CAB) at Fort Carson at this time. Implementation of the Proposed Action involves the stationing of approximately 3,900 additional Soldiers at Fort Carson, the construction of new Infantry Brigade Combat Team (IBCT) facilities at the Operational Readiness Training Center site, demolition of old facilities and construction of new facilities in Fort Carson's cantonment area, and additional training at Fort Carson and the Pinon Canyon Maneuver Site (PCMS). This alternative is summarized in the Army's ROD and described fully in Chapter 2 of the FEIS.

ADDRESSES: For specific questions, please contact: Fort Carson National Environmental Policy Act Coordinator, 1638 Elwell Street, Bldg 6236, Fort Carson, CO 80913-4000 or e-mail CARSDECAMNEPAconus.army.mil.

FOR FURTHER INFORMATION CONTACT: Ms. Dee McNutt, Fort Carson Public Affairs Office at (719) 526-1269, during normal business hours.

SUPPLEMENTARY INFORMATION: The EELs assessed the potential environmental consequences of three alternatives for implementing GTA at Fort Carson and PCMS. All alternatives included constructing new facilities at Fort Carson to support an IBCT and other combat support units, the potential stationing of a CAB, upgrading ranges at Fort Carson, and increased use of live fire training ranges and maneuver areas at Fort Carson and PCMS. The Proposed Action and alternatives do not include the expansion of PCMS or any construction at PCMS. The ROD incorporates analyses contained in the FEIS, including comments provided during formal comment and review periods. The ROD evaluates the ability of each alternative to meet the Purpose and Need for the Proposed Action and outlines mitigation commitments. The Proposed Action was selected as it is best able to meet the Army's needs while sustaining the environment. A fuller rationale for the decision can be found in the ROD which is available for public review at <http://www.aec.army.mil>.

Dated: March 27, 2009.
