

Scientific Advisory Committee (CASAC) on December 5 and 6, 2007. Comments received from that consultation were considered in developing the "Risk and Exposure Assessment to Support the Review of the SO₂ Primary National Ambient Air Quality Standards: First Draft," which was released in July 2008.

The second draft document being released at this time conveys the approach taken to assess exposures to ambient SO₂ and to characterize associated health risks, as well as to present the results of those assessments. In addition, this document also contains a staff policy assessment that considers the evidence presented in the final Integrated Science Assessment (ISA) and the exposure and risk characterization results presented in this second draft document, as they relate to the adequacy of the current SO₂ NAAQS and any potential alternative primary SO₂ standards. This draft document will be available online at: http://www.epa.gov/ttn/naaqs/standards/so2/s_so2_cr_rea.html.

The EPA is soliciting advice and recommendations from the CASAC by means of a review of the draft document at an upcoming public meeting of the CASAC scheduled for April 16–17, 2009 in Chapel Hill, NC. Information about this public meeting will be published as a separate notice in the **Federal Register**. Following the CASAC meeting, EPA will consider comments received from the CASAC and the public in preparing a final risk and exposure assessment report.
