

that the construction authorized by the permit has begun.

If, after a permit has expired, a permittee continues to believe that the project should be built, the Department would welcome the submission of a revised Presidential permit application that demonstrates current local support, shows that the project is financially feasible, and explains based on updated traffic and other studies why the project continues to be in the U.S. national interest. This new application would generally need to be accompanied by updated environmental review documents, in keeping with the Council on Environmental Quality's guidance that environmental documents more than five years old are considered out of date.

In December 2008, the Department issued to the General Services Administration a Presidential permit containing an expiration clause for the new border crossing to be built at Otay Mesa East, near San Diego, California.

[STB Finance Docket No. 35144]

Wisconsin & Southern Railroad Company—Acquisition and Operation Exemption—Union Pacific Railroad Company

AGENCY: Surface Transportation Board, DOT.

ACTION: Notice of exemption.

SUMMARY: Under 49 U.S.C. 10502, the Board is granting a petition for exemption from the prior approval requirements of 49 U.S.C. 10902 for the Wisconsin & Southern Railroad Company (WSOR), a Class II rail carrier, to acquire and operate a permanent exclusive freight rail operating easement over approximately 10.95 miles of railroad known as the Kohler Industrial Lead that is currently owned by Union Pacific Railroad Company (UP) and to acquire and operate approximately 1,000 feet of UP spur track, subject to labor protective conditions. The easement extends from a connection with WSOR's north-south Kiel-to-Saukville line at milepost 14.95 at Plymouth, WI, to milepost 4.0 near Kohler, WI. The UP spur track

constitutes the lead to the site of the former Cargill Malt Plant at Kohler. This transaction is related to a concurrently filed verified notice of exemption in *Wisconsin & Southern Railroad Co.—Trackage Rights Exemption—Union Pacific Railroad Company*, STB Finance Docket No. 35191. In that proceeding, WSOR seeks to acquire from UP and operate 2.8 miles of overhead trackage rights over a line of railroad extending between UP milepost 4.0 in Kohler and UP milepost 1.2 at Kohler Junction near Sheboygan, WI.¹ This transaction is also related to a concurrently filed petition for declaratory order filed in *Wisconsin Department of Transportation—Petition for Declaratory Order—Rail Line in Sheboygan County, WI*, STB Finance Docket No. 35195. In that proceeding, the Wisconsin Department of Transportation seeks a finding that its acquisition of the right-of-way and railroad assets of the 10.95-mile rail line will not render it a rail common carrier. WSOR has requested expedited action in this proceeding.

DATES: This exemption will be effective on May 8, 2009. Petitions to stay must be filed by May 4, 2009. Petitions for reconsideration must be filed by May 14, 2009.

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking approval of the following information collection activities. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than June 23, 2009.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590, or Ms. Nakia Jackson, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590. Alternatively, comments may be transmitted via facsimile to (202) 493-6216 or (202) 493-6497, or via e-mail to Mr. Brogan at robert.brogan@dot.gov, or to Ms. Jackson at nakia.jackson@dot.gov. Please refer to the assigned OMB control number and the title of the information collection in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave., SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Nakia Jackson, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200

New Jersey Ave., SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6073). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. 104-13, section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60 days' notice to the public for comment on information collection activities before seeking approval of such activities by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by

automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(I)-(iv); 5 CFR 1320.8(d)(1)(I)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the proposed information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Track Transportation Time Study.

OMB Control Number: 2130—New.

Abstract: The Rail Safety Improvement Act of 2008 (Pub. L. 110-432) calls for a track inspection time study to be performed by FRA. The information required to develop the

report will be at least partially obtained through a series of information gathering surveys which are focused on various aspects of track inspection. Each survey will be customized for a particular segment of the workforce and will include track inspectors, track supervisors or roadmasters, middle management (division engineers), and senior management (chief engineers).

The purpose of the proposed study is to address four issues raised in the Rail Safety Improvement Act: (1) Determine whether the required intervals of track inspections for each class of track should be amended; (2) Determine whether track remedial action requirements should be amended; (3) Determine whether different track inspection and repair priorities or methods should be required; and (4) Determine whether the speed at which railroad track inspection vehicles operate and the scope of the territory they generally cover allow for proper inspection of the track and whether such speed and appropriate scope should be regulated by the Secretary.

Form Number(s): N/A.

Affected Public: Railroad Employees.

Respondent Universe: 500

Individuals.

Frequency of Submission: On occasion.

Reporting Burden:

| RFEI notice | Respondent universe | Total annual responses | Average time per response (hour(s)) | Total annual burden hours |

| —RR Senior Management (Senior Engineers) | 10 Individuals | 8 | 1 | 8 |

Total Responses: 407.

Estimated Total Annual Burden: 711 hours.

Status: Regular Review.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC on April 20, 2009.
